MEMBER THE ASSOCIATED PRESS

The Associated Press is exclusively entitled to the use for republication of all news dispatches credited to it or not otherwise credited to this paper.

Statisticians report a shortage of June bridegrooms, but there is a bumper crop of heroes headed toward France.

The Kaiser will be known in the future as Wilhelm, the Waster of Lives.

"Greatest army ever transported over seas by any country in the history of the world" is America's first year record.

How long can Germany stand the heavy losses they are now sustaining. They are said to have lost over a half million men since the first of March.

Interned aliens in the United States will be put at work, by order of the government. They should at any rate be made to earn their own subsistence.

While German legions are making temporary gains in France, the line of binders are advancing thru the wheat fields of Texas.

Germany had a population of eighty millions and could raise an army of twelve million. America has a population of one hundred and ten millions, and can produce

an army of sixteen millions, if necessary.

It is claimed that Lutherans in the United States already have more than forty thousand men in the service of the country, and have subscribed \$35,000,000 in bonds.

Every day the United States Food administration becomes more insistent in its policy of attempting to educate the public on the necessity for food conservation. Every precaution is being taken in order that the consumer shall be protected from the profiteers, and from the consumers who may be attempting to store away foodstuffs against a possible shortage. The appeal of the Allies for wheat, barley and other grains is becoming louder every day, and in order to live up to our promises, made them in good faith, it is becoming more and more apparent to those who are studying the problem, that conservation is the only answer.

War times brings into use many economies, many practical ways of utilizing waste products. Sheep have been purchased, at the suggestion of Governor Lowden, to be pastured on the state fair grounds. They will be fattened there as well as doing a great work in keeping the glass plates in order. Secretary Emmerson will also try the experiment on the state house lawn.

THE PRAGER TRIAL.

The verdict of acquittal at Edwinstown in the Prager case wherein eleven men were on trial for the murder of the alleged German spy, was not a matter of great surprise to those who followed the evidence taken at the trial. It would be a difficult thing to fix the responsibility of individuals in a case of mob violence. However, it is unfortunate that someone cannot be made to pay the penalty for the violence done to Prager. There is nothing added to the total of patriotism by a scene such as was enacted at

Collinsville, and aside from any other question the war cause in this country was in no way aided by the spectacle.

The commission of crime by an individual is not countenanced in this country and the commission of crime by a mob is relatively worse. At any rate it is to be hoped that the result of the Prager trial will not serve to encourage mob violence in other cities in the handling of men who are alleged to be spies or sympathizers with the enemy. Laws of the country are strict and speedy and provide ample means for the punishment of disloyalty.

THE BLENDING OF GRAY AND BLUE.

Side by side Columbia's sons, Veterans in blue and gray. Stand the boys behind the guns, Strengthening them today.

Healed are their wounds and gone the scars. Clasped are their hands again. And over all wave our beautiful "Stars."

While hope's in the hearts of men. And trust in God an dHis mighty power.

Inspired by that banner above, Blend the gray and the blue in this trying hour. In the living light of love. S. A. Hughes.

OVER THE TOP BY JUNE 28TH.

Over the top by June 28th. That is the task set for Illinois by the War Savings committee. Every county in the state is to make a desperate effort to see that its full quota of \$20 for each man, woman and child in the county, is either pledged or sold by that time.

June 28th has been designated by Secretary McAdoo as National War Savings Stamp Day. On that day Illinois is asked to purchase at least one \$5 War Savings Stamp—the price of which will then be \$4.17—for every man, woman and child in the state. That means more than 6,000,000 stamps, and more than \$25,000,000 in money.

It sounds like a large order, in the aggregate, but it isn't. It is merely a test of each individual's loyalty to the extent of \$4.17. It isn't even asking anyone to give \$4.17 to help win the war. It is merely asking him to lend that much, to make an investment in the world's best Government security.

Illinois had its Pledge Week before the plans for the national drive. This was successful in proportion of the energy put into it. Some counties went over the top. Others came near it. Others did little. The state as a whole is far behind. What each county must do in June depends largely on the results obtained during Pledge Week.

But, at any rate, June is to be made the month of actual sales. The Thrift stamp is to be left for the Children. Adults are asked to consider nothing smaller than the \$5 War Savings Stamp. They are asked to buy these stamps five, ten, twenty, a hundred or up to two hundred at a time.

The buyer of twenty stamps becomes a member of the Illinois War Savings Certificate Club, with one gold star on his engraved certificate. He gets another star for every additional twenty stamps he buys. The certificate, framed and preserved will be an

answer, in years to come, to the question, "What did you do to help win the great war?"

Purchase of 200 of the stamps makes the buyer a member of the Maximum War Savings Club of Illinois. Two hundred stamps will cost just \$834 in June and will be worth \$1,000 on Jan. 1st, 1923. They may be redeemed at any time prior to maturity and each stamp increases one cent in value for every month it is held.

There must be 10,000 persons in Illinois who are able to become members of the Maximum Club and 100,000 who could easily join the War Savings Certificate Club. These must be rounded up in June.

"Buy the stamps now" is to be the slogan of the War Savings workers. "Put Illinois in the lead. Go over the top for the U. S. A. on or before June 28th."

RIPPLING RHYMS

By Walt Mason

OBEYING ORDERS

The soldier's told to march ahead, and marches, with unhalting tread, to meet his fate; he doesn't say, "Let's argue this, to me there's something seems amiss; let's get it straight. Oh, colonel, let us sit down here, and thresh it out for half a year, it's easy and wise; if you can prove your orders wise, you'll see me like a yearling rise, and swat the foe. I have some maps we both may scan, and if I should endorse your plan, I shall obey; but if I find your wires are crossed, and if your plans should prove a frost, why, then, good day! The soldier does not talk like that; he drools not through his nose, but, but, but makes salute, and goes where he is told to go, perhaps to face a frenzied foe, and shoot a Teut. And old boys who do not fight because of broken wind and sight, and whiskers gray, should jot down what we're told to do, by Washington's official crew, and then obey. It is not ours to reason why when we are told to do, out pie, or shun the ham; let us like soldiers play the game; it is enough that orders came from Uncle Sam. They say to me, "Cut out the wheat," and this command I do not meet with windy spiel; I chew no cheap, disloyal rag; I merely take a burlap bag, and buy corn meal. They say my diamonds should be pawned, that I may buy another bond; I scold the boys; no foolish protests from me arise; I spring no wherefores and no whys, no haws and bems.

"WHO SHALL BE ABLE TO STAND?"

The enemy tells you when they sell you a car that it will not run on cheap gasoline and cylinder oil like I sell. But when you have tried our kind you find that it was all a mistake; and when you stop and think for a moment, you decide for yourself that the STANDARD OIL CO. produces 90 per cent of all the oils and greases on the market today, and all the SO-CALLED GOOD KINDS are bought from the Standard, and given some other name.

C. N. PRIEST,
The Ford Man.

SPECIAL PATRIOTIC SERVICES

On account of the serious condition of things on the western front in the great world's war, the services at the Northminster church Sunday evening will be a service of patriotic songs and prayer. It is time to pray for our navy and army and Allies. The pastor will take for his theme, "The Kingdom That Will Endure After the War." All who are interested in praying for our boys have a special invitation to attend this service.

BARGAINS IN USED CARS

We have some special bargains in used cars. We have almost any make of car you can want. Don't forget, we trade for anything. Overland Berger-Pine Co.

Louis Roberts, Dr. George Cline, J. L. Seymour, Charles Seymour, Mary and Ella Mansfield were city callers from Franklin yesterday.

WATER BOND PROPOSAL MERITS SUPPORT

Tuesday, June 18, just two weeks from next Tuesday, the people of Jacksonville will vote upon the question of issuing water works improvement bonds to the extent of \$75,000. The proposal to issue bonds for the specific purpose of increasing the water supply is one which merits the support of every citizen of Jacksonville. It is proposed to erect an impounding reservoir at the present site of the south pumping station and by means of filtration to thus provide an ample and pure water supply.

More than a year ago at a mass meeting of citizens held at the court house a committee of citizens was appointed to co-operate with the members of the city council in the investigation of the water supply question, with the end in view of eventually coming before the people with some project for securing an adequate supply.

At that meeting the citizens appointed a committee consisting of Dr. J. R. Harker, T. A. Chapin, M. R. Fitch, Dr. C. E. Black and J. W. Merrigan. Thru the co-operative effort of the city council and the citizens' committee representatives of three state departments came to Jacksonville and made an exhaustive study of the water situation. The state water survey, the department of health and the department of geology all sent their representatives and the investigation proceeded for a period of months. The mass meeting at which the citizens committee was appointed was the direct result of a long period of drouth thru which Jacksonville had passed, with its consequent curtailment of water and a very dangerous situation for the entire city, both as to fire and to general conditions of health.

Before the state department engineers had concluded their work, for there were some unavoidable delays, a similar drouth period came on and Jacksonville was confronted with the most serious water shortage that it had known for twenty-five years. The facts about that shortage are still a matter of easy memory. A great many consumers of water were cut off entirely. The State School for the Deaf and the Jacksonville State Hospital were in especially dangerous condition. But finally the period was passed and as a result of copious rains Jacksonville again has a temporary supply.

Another mass meeting of citizens was held about two months ago, when the citizens' committee appointed a year earlier made its report and was continued with further instructions to act for the public generally in connection with the city council. It is a matter of record that at all times the mayor and commissioners have co-operated most heartily with the members of this citizens' committee in water supply investigation and that every action taken has been by unanimous consent.

After the report of the state engineers had been received, the advice of local engineers considered, the joint committee of council and citizens determined to employ an expert engineer to thoroly look over the situation here and consider which was the most feasible of the several projects indicated as possible by the state engineers' report. This expert report, made by a well known Chicago firm of engineers, went into the subject in an exhaustive way and the report as summarized was very decidedly in favor of the building of an impounding reservoir at the south fork of the Mauvaisterre, which is in fact the present site of the south pumping station.

After receiving this report and finding that the issuance of \$75,000 worth of bonds will make it possible to build a reservoir of the type desired, the joint committee decided in favor of that proposition. In preparation for the passage of an election ordinance the city council passed by a unanimous vote a bond ordinance in which it is specifically stipulated that in all affairs related to the expenditure of money for the proposed water improvement that the committee of citizens shall have joint authority with the city council. It is provided further that all money received from the water department shall be devoted exclusively to the payment of operation costs and for the further extension of that department.

This ordinance also provides for the refunding of the bonds and in the course of 20 years the entire bonded indebtedness of \$75,000 can be wiped out. If the proposed issuance of bonds is authorized by the people at the special election which is to be held June 18, in coming years it will make no difference as to the form of city government—no difference as to who are the men constituting the city council—the bonds must be paid and all revenue from the water department must be devoted to that department. There can be no misappropriation of funds or no expenditure of money raised for water extension to other city work.

The language of the bond ordinance as passed and which is now a matter of record covering the points mentioned, is as follows:

SECTION 4. The fund derived from the sale of the bonds herein contemplated shall be used for the purpose of constructing an IMPOUNDING RESERVOIR AND FILTRATION PLANT at the south fork of the Mauvaisterre Creek near the Pumping Station where the same is now located. In accordance with the plans and specifications therefor, which plans and specifications are being prepared under the direction of the City Council of the City of Jacksonville, and a Committee of Citizens heretofore selected to act with the City Council of the City of Jacksonville, and which Committee of Citizens was, by resolution of the City Council of the City of Jacksonville, on the 26th day of April 1918, requested to co-operate with the City Council of the City of Jacksonville in the purchase of the proposed improvement, with equal power to vote with the Commissioners on all plans and contracts for the same, that the funds derived from the sale of the bonds herein contemplated shall not be used for

any other purpose than that of completing the proposed improvement as herein contemplated.

SECTION 5. After the completion of the proposed improvement to the Water System of the City of Jacksonville, as herein contemplated, the income received by the City of Jacksonville from such Water Works System, from the payment and collection of water taxes, rents or rates, shall be kept in a separate fund and shall first be applied in the payment and discharge of the costs, interest on bonds or money borrowed, and used in the erection, construction and betterment of said Water Works System as herein contemplated, and running expenses thereof, that after the payment of the running expenses of the Water Works System of the City of Jacksonville, and the interest on the bonds herein contemplated to be issued, any surplus which may remain shall be converted into a Sinking Fund, for the purpose of paying the bonds herein contemplated to be issued as they from time to time mature.

department of health. There will be further discussion of this highly important question in these columns in due time.

Certainly the time is at hand when every citizen Jacksonville should consider this question on its merits fairly and impartially without letting merely personal opinions in any way warp their views.

WHEN a man makes a will creating a trust, he obviously intends that the trust will be carried out in strict accordance with his expressed desire.

WHEN a man dies he leaves no one but his trustee whose duty it is to see that his wishes are carried out whether the beneficiaries like it or not.

WHEN an individual is made trustee he is subjected to arguments and importunities to modify the expressed will of the creator of the trust, to benefit in some way some one or more of the beneficiaries. The importunities are difficult for the individual trustee to resist, particularly if he is connected with the family.

WHEN a man creates a trust which he wishes carried out according to his plans, he will be best served by a corporate trustee. It dares not do otherwise, lest other men creating trusts refuse to trust even a corporate trustee.

THIS Modern Trust Company will as carefully serve the small estate as the large one. You are invited to consult its officers.

Mr. and Mrs. George Williams of Detroit, Michigan, are visiting Mrs. Williams' parents, Mr. and Mrs. J. M. Thompson of Alexander, Mr. and Mrs. Henry Weiss of Kansas City are visiting Mrs. Weiss' parents, Mr. and Mrs. J. M. Thompson also.

TO ALL FORD OWNERS

I know you are busy, but stop a minute, and think—then ask yourself if it would not be the part of wisdom for you to bring your car to me, where you can get it repaired RIGHT, than to take it somewhere else, and sooner or later have to have it all done over again. I carry a full line of Ford parts and can supply your needs at any and all times.

"A WORD TO THE WISE IS SUFFICIENT."

C. N. PRIEST, The Ford Man.

RED CROSS KNITTERS.

All those who have sweater yarn from the Jacksonville Red Cross Shop are reminded that the sweaters must be turned in within the next three weeks in order that the quota may be shipped in time. Knitters are urged to rush the present special sweater quota so that the committee can ship each week a large number of the sweaters. Some very satisfactory sweaters have been received during the past week and will be shipped immediately. As soon as the quota for socks for Morgan County is received, yarn will be purchased and work begun toward meeting that call. All those having old sock yarn on hand are requested to finish socks and turn them in as quickly as possible.

Thru some misunderstanding the impression seems to have gotten abroad that we have changed our sock directions. Such is not the case. Our directions have been essentially the same since they were issued last fall. We are still casting on 60 stitches, making the leg 13½ or 14 inches including the heel and the foot at least 11 inches long. Recently we suggested that a good measurement for the leg was 4½ inches across and for the foot 4¼ inches across, the suggestion being made to help knitters in keeping the socks uniform. The Committee is keeping in constant touch with Central Division headquarters thru which we ship. Whenever new directions are sent from Central Division they will be printed in the papers at once. Until such new directions appear knitters are asked to follow the directions to be had at the shop with this variation that the single heel may be substituted for the semi-double when desired.

Knitting Committee.

Come early this week — such hats as we are selling at half price won't last long. Floreth Co.

BRINGING FORDS

C. N. Priest has recently returned from St. Louis, where he took a number of men to bring back Ford cars. He expects to make another trip this week.

Clearance sale of all colored, trimmed and untrimmed hats this week at half price. Floreth Co.

WITH THE COLORS

Mr. and Mrs. Leo P. Allcott have received a letter from their son, William L. Allcott who is now in France. He writes interestingly of France and its people. The letter follows:

May 5th 1918

My Dearest Folks—

Just a few lines today to let you know that I am feeling fine and enjoying my work in the same way.

I have only had two letters from you all. They were both written in January. One dated the 24th, sent to Jefferson Barracks, the other January 27th, sent to Camp Sevier.

Since I received the clippings you sent, Supper sister, will be back from Des Moines, by this time. Have had two passes this week, and did enjoy looking over the beautiful city. Saw some very interesting places. One thing seemed strange to me and that was "there is no bread served in the cafes. You carry it along with you. Have been out on number three bikes this week. The roads are fine but more or less hard on the feet. The weather, ideal and the country grows more beautiful each day.

The farms here in France are just about the size of our yard. Stone fences separate one from the other. Hedges are also used the same purpose. Oxen are used in place of horses in farming and hauling. We were out on a hill Friday while on a hike and had a most wonderful view, for miles around. Have always thought the mound at home beautiful but it does not hold a candle to these.

Another thing I have found out "that is the French sure know how to fry potatoes and make an omelet." Every opportunity, I eat all I can hold.

About my work, can only tell you little. Attend two lectures a day of one hour each. Have drills for two hours. Also take a hike. My spare time, they keep me busy doing Y.M.C.A. work. One thing the time goes so fast you can't keep track of it, nevertheless I am enjoying it all. Have had three different sets of officers, and will say never saw a finer lot of men. Now you must not worry if you do not hear from me. Remember ships don't sail as often as the railroads run in dear old U. S. A. Must close for this time. Love to you all

Your loving son,

Address— William

Corporal W. L. Allcott

WHERE IS CHESTER ASHLEY?

Chester Ashley, your mother is grieving for you.

If your eye should chance to perceive this column, you must realize the heartaches which your sudden departure from home has caused your mother, brothers and sisters.

Please take heed, son, and return at once help them and save them further needless worry.

If any one knows of the whereabouts of Chester Ashley he will confer a favor by notifying Mrs. B. T. Ashley on South Prairie street.

Chester left home last Tuesday and has not been seen or heard of since that time. He is fourteen years of age and of a light complexion. It may be that he has secured work somewhere in the country or in some nearby town.

If the mother could be assured of his location and that he was all right it is probable that much of her fears would be dispelled.

Congregational church, entire children service; 10:45.

FIRST JUNE WEDDING SOLEMNIZED SATURDAY

Miss Florence E. Bourn and Andrew Cobb Married at Bride's Home—Flag Forms Effective Background.

The first of the June weddings was solemnized Saturday morning at 10 o'clock when Miss Florence E. Bourn and Andrew Cobb were united in marriage by the Rev. M. L. Postius at the bride's home on East State Street.

The ceremony was very pretty yet simple, the solemn words being spoken with the young couple standing amid surroundings of ferns, palms and flowers, with a beautiful American flag as a background, the ring service being used.

The bride was attractively gowned in a dress of white net and carried a bouquet of bride's roses. One unusual feature, was, that she wore the white kid slippers worn by her mother at her own wedding thirty two years ago. Following the ceremony a dainty two course luncheon was served, after which the young couple left for an auto trip. Only the immediate families were present, the affair being very simple and quiet. There were no attendants, the bride descending from the upstairs on the arm of her father, being met at the foot of the stairs by Mr. Cobb, accompanied by the beautiful strains of the wedding march played by Mabel L. Bourn, a sister of the bride.

Mrs. Cobb is the daughter of Mr. and Mrs. J. Bourn of East State street, is a graduate of the J. H. S. and has always made this city her home, where she has a circle of warm friends. For some time she has been employed by the Jacksonville Creamery Company.

Mr. Cobb is the son of Mr. and Mrs. Arthur Cobb of South East street, is a graduate of the J. H. S. and has taken courses at college in Kansas City and at the University of Illinois. He is a young man of many commendable qualities and has been employed in the Ward & Montgomery factory at Springfield, Ill., but has given up his position, as he expects an early call to the colors and is ready to go when his country demands.

Their many friends extend heartfelt congratulations and good wishes for a happy married life.

"WHY'S AND WHEREFORE'S"

Why don't your car run any better? Because, you use poor cylinder oil, instead of EUREKA, the BEST ON THE MARKET, and for less money than you pay for the inferior kind. So also is it true of the kind of Gasoline you use. If you use Gasoline that has been standing in a tank for some time, you cannot expect to get the results that you will get by buying your Gas of me; my tanks are emptied several times every week, consequently eliminating any possibility of the tanks sweating and the water running into the tank, to be pumped into your car. Furthermore, why have gasoline put into a storage tank, when you can buy it of me in large or small quantities at the same price you pay to have your tank filled, and then, too, you get fresh gas. The price today is 22 1/2c.

C. N. PRIEST, The Ford Man.

CARD OF THANKS

We wish to express our sincere thanks to our many friends and neighbors who so kindly assisted us during the illness and after the death of our sister and mother, Mrs. Jennie Barbour.

The Children and Mrs. John Crum, Mrs. Wm. Spencer.

ELLIOTT STATE BANK

Savings deposits made during the first ten days of June will draw interest from the FIRST of the month.

Automobile paint and varnish; Wonder-mist for cleaning and polishing your car at Brady Bros.

Miss Lola Arenz of Arenzville was a shopper with Jacksonville merchants yesterday.

Expression Students in Annual Recital

School of Expression of Woman's College Gave Commencement Recital — Program of Merit Given Under Direction of Miss Margaret Constance.

The annual commencement recital of the School of Expression of Illinois Woman's college was given in the New Gymnasium Saturday evening. A large audience was present and gave frequent expression of approval of the efforts of those taking part in the program.

One of the main features of the program was the presentation of "The Lantern and the Fan," a Japanese myth. This was dramatized by Miss Louise Reed of the Dramatization class and revealed unusual ability. It was also given a splendid interpretation by the cast. The program follows:

"The Lantern and the Fan" a Japanese myth. (Dramatized by Louise Reed of the Dramatization Class).

Urishmea—Head of the Household.

Inaba and Keta—Daughters-in-law of Urishmea.

Lavinia Jones, Louise Reed, Marceline Armstrong, Eleanor Sherrell.

A Bit of Lace, Knoblauch—Eleanor Sherrell.

A cutting from "The Corner Stone," W. H. McCarter—Mamie Kennedy.

The Girls over Here—A patriotic play in one act. Presented by the Academy Class in Expression.

Virginia—Gertrude Cook.

Madre—Edna Corzine.

Dolly—Vivian Richardson.

Ethel—Eva Hawkins.

Aunt Kate Davis—Jennie Webb.

Babe—Mary Darley.

GOVERNMENT MAY LOAN TO RAILROADS

Amount to \$90,614,000 During Month—Total Advanced During Four Months of Federal Operation \$124,314,000.

Washington, June 1.—Railroads in May received from the government \$90,614,000 in loans or advances on account of rentals the railroad administration announced today. This total brought the total advanced by the government in the four months of federal operation to \$124,314,000.

All but \$6,575,000 of the May payments were made as demand loans at six per cent. Payments were made as follows:

Pennsylvania, \$15,000,000.
Illinois Central, \$5,000,000.
St. Paul, \$5,000,000.
Baltimore & Ohio, \$4,000,000.
Erie, \$3,000,000.
Denver & Rio Grande, \$1,500,000, on account of rental.

Of the \$124,314,000 advanced to date \$109,514,000 came from the half billion dollar revolving fund provided in the railroad bill and \$14,800,000 came from surplus funds of twenty-one railroads paid over to the railroad administration.

AVIATRIX FINISHES LAST LAP OF AERIAL MAIL CARRYING FLIGHT

NEW YORK, June 1.—Miss Katherine Stinson leaving Birmingham at 2:45 o'clock this afternoon finished the last lap of her aerial mail carrying flight from Chicago to New York when she landed at Sheepshead Bay about five o'clock just before the start of the Harkness handicap automobile race.

Cheered by thousands of spectators she circled the track twice and then made a perfect landing on the inner field. Leaving her machine she witnessed the finish of the handicap and was then introduced to Mayor John F. Hylan. Miss Stinson left Chicago May 24. After setting an endurance record by flying 783 miles without a stop she was compelled to land at Birmingham when her supply of gasoline became exhausted. Her plane was damaged when she landed and a series of mishaps prevented her from continuing her flight until today. She experienced no trouble on her trip from Birmingham to New York. The distance from that city to New York by rail is 193 miles.

A FINE FLAG POLE

L. J. Jager who lives with Charles Thompson, 1132 South Main street has erected in the front yard of the Thompson residence a fine flag pole thirty feet high and from it strains a large U. S. flag which attracts much attention.

MINISTERIAL ASSOCIATION

The Ministerial association will meet Monday morning at 10:30 o'clock at the Y. M. C. A. building.

STRAUSE CASE MAY GO TO JURY TUESDAY

PEORIA, Ill., June 1.—Indications at the adjournment of court in the E. A. Strause, murder trial following the close of State's Attorney C. E. McNemar's argument at noon today were that the case would go to the jury late Tuesday afternoon. Court adjourned until 1:30 o'clock Monday afternoon at which time attorney Frank J. Quinn will, it is expected, make the closing argument for the defense and will be followed by C. E. Mansfield, representative of the attorney general's office for the state. There is some speculation as to whether the defense will waive Quinn's argument, in which event the case might reach the jury Monday.

Prosecutor McNemar in his argument today branded Strause's story of the shooting of Berne M. Mead, his cashier in the State Trust & Savings Bank, as a fabrication to deceive. He dwelt only lightly on the death penalty.

"Fix the penalty at whatever you want to fix it under the evidence in the case," he told the jury. "Give him fourteen to twenty-five years in the penitentiary, or life, or even death."

ANOTHER AIR RAID ON KARLSRUHE MADE BY BRITISH AIRSQUADRON

LONDON, June 1.—Another air raid on Karlsruhe has been made by British air squadrons, according to the official statement on aerial operations issued to-night by the war office. The statement reads:

"Our airplanes and balloons again carried out much successful work yesterday. During the morning our long distance bombing machines crossed the Rhine and in spite of strong opposition from enemy aircraft dropped over a ton of bombs on the station and workshops at Karlsruhe. One machine engaged in this raid and failed to return."

"Another group of our airplanes have dropped a ton of bombs on the railway triangle of Metz-Sablons with good effect and without losses. During the course of the day 31 tons of bombs were dropped on different targets behind the enemy line. Twenty German machines were destroyed in air fighting and six were driven down out of control. One other hostile machine was shot down by anti-aircraft fire. One of our machines is missing. During last night sixteen tons of bombs were dropped by us on targets in enemy territory. Six tons were dropped on Bruges docks and on the Zebrugge canal in addition four tons were dropped on railway junctions and the stations at Metz-Sablons, Karlsruhe and Thionville. All our night bombing machines returned."

"One German light bomber airplane was brought down in flames behind our lines."

Women teachers in the Pittsburgh public schools have been voted a \$100 war bonus by the board of education.

RAILROAD EARNINGS IMPROVE IN APRIL

Interstate Commerce Commission Reports Earnings for Month Are \$80,000,000.

Washington, June 1.—Railroad earnings in April improved considerably amounting to about \$80,000,000 interstate commerce commission reports today indicated.

This is within \$5,000,000 as much as net earnings in April last year and about \$17,000,000 more than in March.

Actual net operating income for 149 of the 195 first class roads, as reported by the commission amounted to \$62,036,000 and later reports from other roads are expected to raise this to \$80,000,000.

For the four months ending with April net operating income is estimated at nearly \$140,000,000 as compared with about \$282,000,000 in the same period last year. This decrease of practically one half was caused by demoralization of traffic in January by bad weather. Earnings since that month have improved steadily however, and now are nearly normal. Of the roads representing those in eastern district earned \$21,550,000 as compared with \$23,451,000 in April, 1917. Western roads earned \$28,915,000 as compared with \$31,434,000 in April, 1917. Southern roads earned \$31,531,000 as compared with \$26,115,000 in the same month last year.

NEW NATURALIZATION LAW IN OPERATION

WASHINGTON, June 1.—The American soldiers or foreign birth who have not taken out naturalization papers are being made citizens of the United States before leaving the training camps in this country for overseas service, the naturalization division of the department of labor announced today. Approximately 100,000 aliens in the army will have citizenship conferred upon through operation of the new naturalization law.

SIX MORE NEGROES ARE SHOT TO DEATH

HUNTSVILLE, Tex., June 1.—As a sequel to the killing two days ago of George Cabiness, a negro drafted register, following threats the negro had made against Sheriff T. E. King, and the King family, six more negroes were shot to death today and their bodies near a lodge, ten miles from here. Reports thus far received here do not make it known whether the negroes killed in resisting sheriff's deputies or whether they were attacked and killed by a mob. The wholesale execution occurred about daybreak.

TAKES NEW POSITION

No invitations were issued for the graduation exercises this year, but the public is cordially invited to be present.

Mrs. Carl Kokely has returned to her home on East College avenue after a week's visit with her husband at Clinton, Indiana.

Mr. and Mrs. Cliff Van Zandt of Chicago are spending Sunday with Mr. Van Zandt's parents, Mr. and Mrs. G. W. Van Zandt.

Your summer hat can be secured of FRANK BYRNS' Hat Store.

BANQUET AT SCHOOL FOR THE BLIND

The L. O. A. society of the Second Baptist church enjoyed a banquet in the dining hall of the institution Saturday evening. After the menu had been served a program was carried out. W. R. Wilson ad Mrs. Inglis responded to toasts. "A Mother's Prayer" was given a splendid rendition by a double male quartet. Patriotic reading by Frank Thompson and a violin quartet number. The program was followed by dancing which was greatly enjoyed by the company. This is annual year at the school and many graduates and former students are here for the commencement exercises.

Mr. and Mrs. George E. Matthews, who recently sold their residence property on Webster avenue, now have rooms at the home of Mr. and Mrs. S. T. Anderson, 873 West State Street.

SUIT FILED.
In the circuit court yesterday an assumpsit suit was filed by Ben O. Brockman vs. Ethel R. and Mark Johnson. The amount of the indebtedness is indicated as \$1,800.

NINE TAKING THE SIGNAL SCHOOL COURSE

Directors Held Business Session Saturday Afternoon—J. J. Kelly and P. A. Heneghan Added to Board—Warren Recker Enlists in Navy.

A special meeting of the board of directors of the Morgan county signal school was held at the Ayers Bank building Saturday afternoon. Several matters of importance were considered.

E. Wacker, chief instructor reported that there were now nine students taking the course, and that he had ample room for any drafted man that might wish to take up signal work. In order that younger men who might be called into the service could take instruction the board decided to lower the age limit to 19 years. Any young man between the ages of 19 and 31 may now enter the school.

It was decided by the board of directors that Boy Scouts who are fifteen years or over will be admitted to the school in a special class. They will be given training afternoons only, there will be two classes a week. Any Boy Scout within the age limit who wishes to enter the school will please communicate with either Fred Darr, Harry Walker or Frank Bourn.

Chairman Rammelkamp appointed two instructors to take charge of the Boy Scout classes.

The signal school with the permission of the exemption board will have a man stationed at the registration headquarters next Wednesday for the purpose of explaining the signal work, so that any young man wishing to do so may enter the school.

By unanimous vote Phil A. Heneghan and J. J. Kelly were added to the board of directors. Both Heneghan and Mr. Kelly have been very active in the work of the school.

Secretary Findley reported that Warren A. Recker who recently enlisted in the navy as a seaman had been transferred to Harvard University to complete his signal school work. The fact that Mr. Recker had been a student at the local school was recognized by the naval officers.

SCREENINGS FOR CHICKENS

Wheat screenings are a good feed for chickens; sold by Cain Mills. Price \$3.25 per 100 lbs.

FUNERALS

Gouveia.

Social Events

Sinclair Country Club Meeting.

On Wednesday afternoon the Sinclair Country Club held its regular meeting at the home of Mrs. Harry Martin. There was a good attendance. The club decided to not serve refreshments at the meetings during the war, the cost of these refreshments to be given into the treasury to be used in war work. Roll call was answered by current events. An instructive paper was given by Mrs. Thomas Brown on "Flies, Mosquitoes and Animals as Causes of Disease."

Buildings was the subject of an instructive paper by Mrs. Richard Robinson.

Guests of the club were: Miss Litter, Miss Martin and Miss Myers of Litterberry, Mrs. Frank Green of Strawn's Crossing, and Mrs. Smart of Chicago.

The next meeting will be with Mrs. Richard Robinson, June 12.

Domestic Science Round Table at Picnic Luncheon.

An all day picnic was enjoyed by the members of the Domestic Science Round Table at the home of Mr. and Mrs. Ben Lorton, just east of Jacksonville. The picnic dinner was spread at 1 o'clock and nothing had been forgotten in arranging that excellent bill of fare. Mrs. Herbert Capps presented an interesting paper on vacations and when roll was called members answered by presenting summer menus. This is the last meeting of the season and the club adjourned until next fall. A nominating committee was chosen including Mrs. Ben Lorton, Mrs. H. C. Clement and Mrs. M. C. Hook. The following officers were suggested and duly elected:

President—Mrs. Herbert J. Capps.
Vice president—Mrs. E. H. Gray.
Second vice president—Mrs. J. F. Claus.
Secretary—Mrs. Addison Taylor.

Treasurer—Mrs. Clark Green. Among those present at the picnic luncheon Saturday assisting Mrs. Lorton were the following: Mesdames A. L. Adams, A. C. Curry, Will Davis, George Harney, Frank Kitter, William Newman, F. M. Roberts, L. E. Wyatt, William Cleary, J. W. Arnold, J. W. Rawlings, Dora Lowdermilk, George A. Smith, Grant Graff, Ernest Pierson, Richard Pratt and Misses Mae Allison, Belles Howard and Frances Hulet.

"THE TIME, THE PLACE, AND THE MAN"

The Time is RIGHT NOW. The Place is 416 to 30 West State St., and the man is C. N. Priest, the Ford Man. Ford and Standard Oil Service Stations.

Mr. and Mrs. Fount J. Andrews have returned from an eastern trip where they went to say good-bye to their son, LeFount Andrews, who was leaving with his company under command of Capt. Vickery for service in France. As already mentioned, the young man has arrived on the other side safely.

Mr. and Mrs. Andrews visited Camp Upton, Camp Merritt and other places in the east of military interest. Mr. Andrews said yesterday that New York and all places in the eastern states certainly suggest war on every hand as there are soldiers everywhere.

Mr. and Mrs. Andrews drove over a thousand miles by automobile during their eastern stay and thus had opportunity for an advantageous view of a great deal of the country.

Pres. Harker's Book of Addresses; An Inspiration to Right Living

The baccalaureate addresses of President Joseph R. Harker of Illinois Woman's college for the twenty five years, 1893 to 1918 are just from the press, the volume appropriately making its appearance in connection with the twenty fifth anniversary of the college. The binding is in blue and gold, the college colors, and the frontispiece is a picture of Dr. Harker together with Mrs. Harker, to whom so large a share of the credit for President Harker's successful work belongs.

The addresses were published as a result of earnest request made by many alumnae and friends of the college. The book gives the place and date on which each baccalaureate service has been held during the twenty five years, the name of the pastor delivering the sermon and the text. The date and place of the commencement exercises is also given, together with the names of the graduating class and their present addresses. In this way the volume in addition to the worth of the addresses, becomes an especially valuable record for the alumnae of the college. In the foreword Dr. Harker mentions that the addresses make no claim to literary merit, that they were not originally intended for publication. They represent the earnest desire on the part of the college president to give to each graduating class a message which may prove helpful to them during the years to follow.

A reading of the addresses in their sequence indicates how consistently Pres. Harker has sought to emphasize the thought that education is only of value as it prepares for faithful service. He has again and again laid stress upon the gospel message, "Let him who would be greatest among you be the servant of all."

The first address under Dr. Harker's presidency was delivered Sunday, June 3, 1894, at Grace M. E. church. The sermon was by the pastor, Rev. W. A. Smith. The last of the addresses is the one he will deliver this morning at Grace M. E. church. It is not only the address but the sermon that are given as President Harker himself will today preach the sermon, using as his text Philippians 3-8, "The excellency of the knowledge of Christ Jesus, my Lord." The volume, which is of more than 250 pages, is dedicated to Mrs. Harker in the following paragraphs:

"To my wife, the home and college mother. Who, equally with myself, has borne the burdens and cares and enjoyed the happy privileges of our home and college life;

Who, by her patience and gentleness her unfailing tact and sympathy and love, has made possible all that has been accomplished for

the college in these twenty five years; and
Who, by her unwearied interest and personal affection, has enriched the lives of both faculty and students, and inspired us all to express the best within us.
This book is affectionately dedicated."

Purpose to Recall Truth.
In his foreword President Harker writes as follows:

"These addresses are printed at the urgent request of many alumnae and trustees of the college. The author is very sensible that they have no claim to literary merit. They were spoken to each graduating class as it went out, after several years of most intimate association as president and students, and were intended to recall in a few words some simple truth which had been emphasized in the chapel services of the year."

"The Illinois Woman's college has been more than a college thru these years; it has also been a home. The relation has been closer and more personal than the ordinary relation between president and student—the students have come to be more like daughters. The addresses are, therefore, simple heart-to-heart talks, the style familiar and personal, and the subjects familiar to life rather than to academic problems. They are for this very reason, perhaps, they may be of more permanent interest."

"The date and place of each commencement occasion is given, with the text, and the names of the baccalaureate preacher, the names of the members of the class with their 1918 addresses, as far as known, are also given. It is hoped that in this way, for each of the classes, the happy memories of the graduating days and friends may be vividly recalled, and that the president's final words may frequently again bring pleasure and inspiration."

More than 600 Graduates.
"If their publication shall help to recall to the more than six hundred graduates of these happy twenty five years of service some of their college hours that were most worth while, or help them still to meet life's duties with more resolution and pleasure; if it shall contribute to the strengthening of class and college associations, and add to their interest in the continued advancement of the college, it will be worth while."

"We trust the little book will carry to each member of every class a very personal message of love from both Mrs. Harker and myself. We love them all greatly, and one of our chief joys is in recalling our happy personal relations with them. Our chief reward in these later years will be the knowledge of their continued esteem and affection for us; but especially of their continued appreciation of the college, and of their increasing purpose to be loyal to it, and to contribute to its adequate endowment and support."

The book as one peruses it, tho its author does not claim its literary worth, is indeed one of strength and inspiration. Young and old can read it with profit and they will find in its passages "a lamp unto the feet."

TO ALL FORD OWNERS
I know you are busy, but stop a minute, and think—then ask yourself if it would not be the part of wisdom for you to bring your car to me, where you can get it repaired RIGHT, than to take it somewhere else, and sooner or later have to have it all done over again. I carry a full line of Ford parts and can supply your needs at any and all times. **"A WORD TO THE WISE IS SUFFICIENT."**

STYLE SHOW AND FOOD EXHIBIT AT I. W. C.

Home Economics and Household Arts Departments Gave Interesting Exhibits Saturday Afternoon—Wheatless Bread, Cake and Pastry Featured—Style Show Monday Afternoon.

The exhibits in the home economics and household arts departments at Illinois Woman's college were given yesterday afternoon from 2 to 4 o'clock. The exhibits this year were of more than usual interest and gave many illustrations of how to assist the government in the conservation of both food and clothing. The style show in the household arts department will be open again Monday afternoon from 2 to 4 o'clock, and there will doubtless be many who will avail themselves of the opportunity to see the gowns and hats and other articles made by the girls of each department. The hats and gowns are shown on living models, each girl appearing in her own creation. Some of the gowns are made of new cloth while others are remodeled from material which has been previously used. All are well made and cleverly designed and give evidence of the practical skill which the students are acquiring in this department of the college work.

No Wheat Flour Used
The home economics department exhibit was in entire accord with the government's food conservation program, featuring wheatless bread, cake and pastry. No article in the splendid array of foods which made up the exhibit contained an ounce of wheat flour, and it was a fine demonstration of what can be accomplished with wheat substitutes in the way of providing wholesome and appetizing food. There were biscuits, breads, waffles, muffins, corn meal desserts, fruit gems, spoon corn breads, corn meal wafers and a tempting array of cakes. There was a spice cake made from barley flour and one from rice flour and buckwheat flour. There were chocolate cakes made from barley and rice flour and from buckwheat flour and rolled oats. Among the sponge cakes was one made from barley flour, another from corn flour and a third from rice flour.

The bread exhibit included loaves made from corn flour and buckwheat flour in equal proportions, rice and barley flour, rolled oats and corn flour, barley flour and ground rolled oats, and a number of other combinations. A placard accompanied each loaf showing the total cost of the ingredients.

Made from Corn Meal
The corn meal desserts included a custard pie with corn meal crust, spoon corn bread, parched cornmeal wafers, cornmeal pudding and cornmeal mush with fruit. The muffins were made of rice and barley flour, corn flour and barley flour and rice-flour and rolled oats. Among the biscuits exhibited were those made from a combination of corn flour and rolled oats, from corn flour alone and from barley flour.

(TNR) 5aturday w-duhol ww5
Arranged about the walls were placards and charts giving a wide variety of interesting and instructive facts. One chart illustrated the comparative food value of dried and canned vegetables and fruits, another the comparative nutritive value of various foods. Under the heading "Wide distribution of money for food," were the following rules: spend from one-fourth to one-third of the food money for bread, cereals, macaroni and rice; spend as much for vegetables and fruits together as you do for milk; spend no more for meat and eggs than for vegetables and fruits. An interesting exhibit was that of various foods in portions furnishing 100 calories or units of energy. This group was subdivided into five divisions—the foods rich in fats, those rich in starch, those rich in sugar, in protein and in mineral salts.

Miss Isabel Walker, the head of the home economics department, stated that while the work this year has been more difficult than heretofore because of the necessity for using substitutes, that she has really found it more interesting than before.

The Style Show

In the household arts department, in charge of Miss Gray, the first exhibit was that of georgette and silk voile waists made by the second year girls. This was followed by the freshman girls in early spring dresses of gingham, linen and medium weight materials. Then came the exhibit of made over garments by second year girls. Each girl was required to fashion a garment from used material and the showing was indeed excellent. The style show was concluded with the appearance of all the girls in lingerie dresses, made of organdy, tissue gingham, voile and similar materials. The girls entered the room in groups of two or three and passed slowly before the assembled company, placards being exhibited at the same time indicating the material required for each garment and the cost of the whole.

Millinery and Embroidery
The work done by the millinery and embroidery class was especially noteworthy. In this work the designing is by the students themselves and their proficiency is ample proof of their proficiency in this line. Other interesting exhibits were kimono dresses made by first year girls, infants' dresses made by second year girls, and sewing aprons made entirely without basting or hand sewing, and using at least three attachments of the sewing machine.

A placard indicated the amount of Red Cross work done by the girls in this department since the first of the year and the showing is indeed a creditable one.

All persons who should make personal property schedules and have not, must return same to this office at once. W. A. Masters, County Assessor.

EXEMPTION BOARD NEWS

Adjutant Green of the exemption board office yesterday received the following card from Thoma T. Whitacre, one of the Morgan county contingent, recently sent to Camp Shelby but not accepted for service: "I suppose by this time you have been informed of my demise and the untimely ending of an otherwise brilliant military career."

The following classifications or reclassifications have been made by the exemption board:

Royal C. Daley, Jacksonville, has been classified as a delinquent but the board has been informed by the adjutant general's office that Daley is in the military service.

Joseph Barter of Rock Island has been placed in class 5-G not being physically fit for military service.

Robert Slavins, Waverly, has been placed in class 4-A. He had previously been listed in 1-J.

Carl B. Angel of Ashland has been placed in class 4-A.

Jesse Moore, route 6 Jacksonville, has been placed in 4-A. He was previously in class 1-J.

Logan E. Smith, 709 North East street, has been placed in class 1-I.

Floyd Gibbs Owings, Jacksonville, is now in class 3-B on account of dependent parents. He had formerly been classed in 1-A.

Relatives of several of the Morgan county men who were sent by the local board to Jefferson Barracks May 23, have been advised that they are now located at Fort McIntosh, Laredo, Texas. There were 2500 Illinois men who left Jefferson Barracks Sunday, May 26, for the southern camp.

**A. C. SHIBE PRINCIPAL
OF SHEBOYGAN SCHOOL**

Former Resident Recently Appointed Principal of U. S. Grant School in Wisconsin City—Will Take up New Duties in the Fall.

A Sheboygan (Wis.) paper of recent date contained the following notice of the appointment of A. C. Shibe as principal of the U. S. Grant school in that city. Mr. Shibe is well known in Morgan county, as he was for some time a resident of this city. He is the son of Mr. and Mrs. L. B. Shibe of route 7. His many friends here will be glad to know of his advancement.

At the regular meeting of the board of education last night, the committee on teachers unanimously recommended Albert C. Shibe, of the high school faculty, for the position of principal of the U. S. Grant school, to fill the vacancy left by the death of F. W. Broer. The appointment was approved by the board.

Mr. Shibe was born at Winchester, Ill., December 13, 1885. He was educated in the public schools and the high school of Jacksonville, Ill., and later attended the Jacksonville college. He also took up special work at the State university. He taught for two years at Waupun, Wis., and then one year at Joplin, Mo. In 1913 he was married to Miss Lucille Beucus of Waupun, and in the same year he came to Sheboygan as a teacher of history in the high school, and now holds the position of head of the history department.

Mr. Shibe has been a loyal and enthusiastic worker in all school activities, having taken an especial interest in debating. For several years he coached one of the teams of the annual joint debate, and last year organized a new society known as the Alethean debating society. After the resignation of Peter Jost, who was recently called into military service, Mr. Shibe volunteered to act as athletic coach.

Mr. Shibe will enter upon his new duties next fall, and while Principal Urban and the faculty regret losing his services, they wish him success in his new position.

NEW BOOKS AT THE PUBLIC LIBRARY

The following list of new books are ready for circulation at the Public Library:

Literature
Lindsay—Chinese Nightingale and Other Poems.

"I remember, I remember That Spring came on forever That Spring came on forever Said the Chinese nightingale."

TEACHERS LEAVE FOR THE SUMMER

Miss Anna English, one of the teachers of the city schools will leave today for Kearney, Neb. Miss English will spend eight weeks at the state normal school there. Her parents live in Nebraska about 100 miles distant from Kearney and she will probably spend a short time at home before returning to Jacksonville.

Miss Minnie Balcke also of the city schools, has gone to Pekin to be with relatives and Miss Dorothy Ward left Saturday for her home in Lawrence, Kans. Miss Helen Calkins will leave today or tomorrow for her home in Quincy.

CASS COUNTY MAN IN SERVICE IN FRANCE

Miss Gertrude Wright of Virginia Receives Letter From Brother, Reuel A. Wright, With A. E. F. Overseas—Is But Nineteen Years of Age.

Relatives in Virginia have received the following interesting letter from Reuel A. Wright who is now with the American expeditious forces in France. The young man has a number of friends in Morgan county who will be glad to hear from him. He enlisted May 4, 1917, at which time he was but eighteen years of age. In August he was sent to France and is serving in the heavy field artillery. He has recently passed the examination as first class gunner which carries with it an increase in pay. Young Wright's letter reads as follows:

Somewhere in France.
May 6, 1918
(7 p. m.)

Dear Sister:—
I will drop you a few lines to let you know I am still alive and enjoying the best of health. Hope this letter finds you the same. I have not heard from you for several days. Received a letter from mother a few days ago and one letter from Uncle John one day. Also one from Grandpa. At present we are having lots of rain, in fact it has rained most of the time since my arrival in France. The Frenchmen say it rains for six months and then they have nice weather for almost that long. I guess the rain is caused from the constant heavy firing which hardly ever ceases. The war is still almost the same as ever both sides being at a deadlock. Neither of them being able to drive the other much. However I think the other side will get enough and a little thrown in for good measure before we get through with them. They are already beginning to realize that they are not matched against a baby and before much longer I think they will understand they have more on their hands than they can possibly hope to handle for we will whip them if it takes us 70 years to do it but of course we hope to complete the job much sooner. Every man over here is here to do his best or die trying and from what I can hear the majority of the people in the States are the same.

Well Sis, I suppose you are attending school regularly and making rapid progress with your studies and will next year be ready for second year high school. Hope you will be able to go to school until you graduate for during my travels I find that it is hard to make much progress with a high school education. At least if I had a little more education I would not have much trouble in receiving a commission. At present I have to be content with a 1st class private and passed examination as 1st class gunner which pays \$3.00 more per month, but don't be surprised if you hear of my promotion in the near future.

Did you receive my photo? I sent it nearly two weeks ago. Hope you receive it. O. K. It isn't very good, would have had it taken when I had my mustache but was afraid you would not know me.

We have had nice spring weather the last two days, but as yet have not had much real warm weather. I attended a play "Baby Mine" the other night at the Cinema. It is an old play in the States but new to us. I must ask you to excuse the mistakes I have made in this letter, as I am not very handy at pounding a typewriter as yet. I am only learning to be a stenographer. Boo! Hoo! As I have run out of anything to write with the pen going on same as usual one day the Allies have an advantage, the Germans, the next, of course the Germans are losing more men than the Allies.

Well, Gertrude, as I am forced to close on account of being out of news will close for the present. Hoping you will kindly write whenever convenient. I try to write mother three or three times a week in order that she may hear often and am more glad to hear from home and old friends. Give all inquiring friends my best regards.

I remain with much love,
Your loving brother,
Reuel A. Wright.

Plenty of Reid's Yellow Dent 1917 corn that has never shown a test less than 95 per cent. F. L. Hairgrove, No. 202 N. Prairie St. Illinois Phone No. 412.

RED CROSS SALE AT MURRAYVILLE A SUCCESS

Auction Sale Netted \$684—One Egg Sold for \$37.

Murrayville, June 1.—A successful Red Cross sale was held in the public park this afternoon. Many articles had been donated for the sale and the sum of \$684 was realized.

C. Justus Wright and Elvis Spencer were the auctioneers and Hugh Millon and J. L. Wyatt were the clerks. There was a good crowd present and the bidding was spirited. The proceeds will go to the local Red Cross auxiliary.

Among the articles disposed of was a pig that brought \$60. A goat was bid in at \$91.45 and one egg sold for \$37. A puppy dog of the rat terrier variety brought \$34.

NOTICE TO LOAFERS

On and after June 1, according to instructions from the federal authorities, all loafers and idlers who are able-bodied will be picked up and turned over to the government. Able-bodied men without occupation or visible means of support will take note and govern themselves accordingly.

GEORGE P. DAVIS,
Chief of Police.

3 YOUNG MEN LEAVE FOR NAVY SERVICE

Messrs. Bell, Osborne and Rowe Expect to Secure Positions as Yeomen—May Be Assigned to Land or Sea Duty.

Cleon Bell, Richard Y. Rowe, and Marcy W. Osborne, all of this city and well known young society and business men of Jacksonville left the city last night for Newport, New York, where they expect to enlist in the U. S. naval reserves at third class yeomen. Mrs. Osborne will go to Newport to be with her husband.

The position of third class yeoman carries with it considerable responsibilities as these men are the clerical workers and business managers, in a sense, of the naval forces. The yeomen may be assigned to either land or sea duty, and they receive an average of \$80 per month, with government allotment for their families. They are entitled to wear a petty officers' uniform.

Applicants for enlistment into this branch of the naval service are required to pass strict physical examinations as well as examinations showing their clerical ability and fitness to fill the positions to which they aspire. After passing these examinations successfully the men are required to attend a school of instruction for a period of five or six weeks. After completing this course the men are assigned according to the ability shown during their schooling.

Review classes in shorthand and typewriting will be formed at Brown's Business College on June third, tenth and July second. There are many who could qualify in a short time for a good position. Classes in bookkeeping and correlated subjects, too. The principal, G. C. Claybaugh, would like to talk it over with you. Ask about our War Emergency Courses.

GRADUATED AT VANDERBILT

Walter B. Rogers has received the commencement program of the graduating class of the dental department of Vanderbilt University at Nashville, Tenn. A member of the class is J. C. Austin, a son of Mrs. Ada Rantz of Waverly, and a nephew of Mr. Rogers. Mr. Austin is the only graduate of the class from Illinois. He will immediately enter the service having offered his services in the dental section of the army before graduation and being given time by the government to complete his work. The young man is well known in Jacksonville as he resided here for some time and assisted Mr. Rogers in the assessment and treasurer's office.

WILL TAKE DIVINITY DEGREE

Tomorrow Rev. W. E. Collins expects to go to Chicago to take the Degree of Bachelor of Divinity at the Chicago University. The reverend gentleman has been studying for this three years and has taken the prescribed examinations and is now ready for the honor which it to be conferred upon him.

Paints, oils, varnishes and brushes; anything and everything you want at Brady Bros.

ANNUAL ART EXHIBIT AT WOMAN'S COLLEGE

Display Is One of Unusual Excellence—Work Covers Wide Range—Some New Features Have Been Added to Department.

Each year the friends of the Woman's College and of true art anticipate the display of the art department of the college and they are never disappointed. The capable instructor, Miss Knopf, is not satisfied with past achievement but is all the time reaching out for something new and original, useful and sensible. Of course anything like a critical description is not attempted but it is a real pleasure to note the meritorious work done, the originality displayed and the progress made in this department.

Miss Knopf says she fondly anticipates the day when art will be recognized as a part of a regular curriculum and not an ornamental accomplishment. This year she has been capably assisted by Miss Virgin.

A somewhat new departure is a Friday sketch class whose members have done some excellent work. There are a number of portraits of persons in various positions; a number of examples of decorative work in which the Egyptian and oriental designs have been chosen as texts; a number of highly creditable samples of interior designs.

Another group of pictures show what had been done in rapid sketching. One young lady was asked to place on canvas her idea of spring; another of March; a number of scenes in Belgium, refugees, suffering children and similar topics furnished ideas for meritorious work.

Some advertising window cards gave scope for original work of a good quality the young ladies showing aptitude in portraying the excellencies of the wares kept for sale by the merchant, whose goods were shown and in this line the young ladies certainly did admirably. The Liberty Loan, War Savings Stamps, Thrift Stamps, the Nation's needs for food and many other features were portrayed with a rare degree of skill adding to the interest taken by the people in the great conflict in which so great part of the world is engaged.

Of course, the charcoal work, still life, cast drawing and the like will ever have a prominent place and deservedly in a studio like this.

This year there has been a departure in the way of portraits of different persons in addition to the other work and all are well done. The still life subjects are well chosen and arranged and all are portrayed true to life.

In decorated china there is a large line of samples of many designs. In these there is much originality and all the articles manifest good taste and careful attention to the work in hand. Later colors have a prominent place as a matter of course. The effort has been to have a wise selection of subjects and a careful attention to every feature of the work. Flowers and all sorts of objects have been chosen and well done.

When we come to oil we have the foundation of art. The great masterpieces of the world have been in oil and they are treasured now as priceless possessions both in the galleries of the old world and the new. Many objects of all kinds are shown and there has been a careful and harmonious blending of colors. One piece, a fishing globe with other objects adjacent is meritorious as are several other pieces.

In the hall adjacent is a screen on which is shown a great variety of designs in the hour a week class. Here the work especially calls for originality and natural ability. First the pupils are bidden to make a hasty mark with an ink brush or some other object; they make several, choose one which they may amplify by combining it in various forms, figures, monograms and the like and then on to nature study, dragon flies, wild animals and other designs.

On another screen are a number of costume designs which is a new departure this year and one which will doubtless be followed up with something more elaborate in another year. Some advertising posters here too show very good work and as a whole the department shows steady progress and it is gratifying to know the number of pupils was larger than usual the past year.

Misses Pauline Jones and Helen Purcell of Kowane and Miss Marie Towle of this city received certificates this year.

ANNOUNCEMENT

Dr. James A. Day, Leland office Bldg., Springfield, Ill., will be at his Jacksonville office, Rooms 5 and 6 Scott Block (first building west of court house) every Wednesday from 10:30 a. m. to 5 p. m.

WILL PRAY FOR ARMY AND NAVY

Because of the serious situation on the Western Front in Europe the service at the Central Christian church, Sunday morning, June 2nd will be a service of prayer for our army and navy and our Allies. The theme of the sermon will be "The Hand of God in the History of the World."

Our ice cream makes a Sunday dinner taste just the best in the world. Try some of it.

EMPEY RAISED BIG RED CROSS FUND

Dramatic Story of His Appearance in "Liberty Hut" at Washington Is Told.

Mrs. S. E. Bergschneider has received the following in a letter from her sister, Miss Lucy Coultas who is in the ordnance division of the war department at Washington. Miss Coultas describes the dramatic scene when G. A. Empey raised a splendid fund for the Red Cross work.

Red Cross Headquarters during the recent campaign was known as "Liberty Hut". Each night was represented by one of the Allied nations and Saturday night was United States night. Guy Arthur Empey author of "Over the Top", was the principal speaker. One of the Red Cross ladies presented him with a bouquet of a dozen roses after his talk. He said it was the first time he had ever received anything of the kind and it rather embarrassed him. But instantly he decided to auction them off and give the money to the Red Cross. The roses sold for \$50.00 and up. Two brought \$500.00 and the last rose sold for over \$1,000.

Owing to the lateness of the hour, he said if there were any pro-Germans in the house, they could go and of course no one went. As one of the final suggestions to aid the Red Cross cause, he said that if every one would hold up a \$1.00 bill he would go around and get them. Well, he started and he had so many to collect that he had to give up and went back to the stage and asked them to file in line and pass by and drop their dollar bills in a wooden tub which had been brought in. The idea was to pay \$1.00 to get to shake hands with Empey. Well, they filled this tub and two big horns which they borrowed from the band. He stood up during all this and said he had gotten out of a sick bed to come and thought he would go back to one. He then attempted to auction off one of his books but had to give up and hand it over to the chairman to finish for him. He made his way to a room at the side of the stage and fainted.

HE TOOK A CHANCE AT AN OVERLAND

James B. Chance of Bluffs wanted a dependable car to get over the country right and wisely bought, thru Mr. Reynolds, agent of the Overland Berger-Pine Co., a 90 touring car.

Automobile tires, tubes, fully guaranteed; batteries, oils, grease, spark plugs, tire pumps, the best goods made at the right price. Brady Bros.

DECORATION DAY
PROGRAM AT CONCORD

Many Former Residents Attend
Patriotic Services at the M. P.
Church—Rev. W. M. Hailey of
Barry Made Principal Address
—Other News Notes.

Decoration Day services were held on Thursday afternoon at the M. P. church in Concord. After "America" was sung by the audience, Rev. Thomas Simons read an appropriate scripture lesson and offered prayer. Special music of excellent quality was given by a select choir of the village churches. Patriotic recitations

Danger Signal

were given by Charles Nickel of Concord and Miss Leary of Beardstown. Their work was excellent and was well received by the large audience. The chairman, Rev. C. A. Fairchild, then introduced Rev. Wm. M. Hailey, editor and minister of Barry. Brother Hailey was reared in Concord and lived here for a number of years, consequently he needs little introduction to a Concord audience. He naturally spoke in a reminiscent mood at first.

Referred to Earlier Days.
In brief, he paid a glowing tribute to a former teacher, A. Thrasher, who is now dead. He also recalled his membership in the Camp of the Sons of Veterans that flourished here for some years, beginning in the fall of 1886, and how we marched to the cemetery on Decoration Day as escort to the old soldiers of the G. A. R. Of that goodly number of veterans who marched in those days, only four remain in Concord precinct: A. W. McConnell, Milton Ham, John Wilson and E. P. Taylor. The others have been mustered out and are enrolled in the "Grand Army" on the other side. Mr. Hailey went to Calhoun county to begin his ministry in the Methodist church. A while later he came back and claimed for his bride, Miss Sallie Mulligan, a former classmate in school. They have three sons, Howard, the eldest is in France. He was appointed Captain of a unit of 25 young men to go over there in a special service. He has faced many dangers and has been decorated by the French government for distinguished bravery in saving wounded soldiers. The second son is on board a vessel

"somewhere" and will make his mark too if a "U-boat" don't get him. The third son is crazy to volunteer too as his brothers have, but he is only 20, and will wait a few months yet.

The War to Date.
The fine address of the speaker was taken up with war topics—1861 to 1865—and from then to the present war, which furnished a theme for a very interesting address. While it would make splendid copy for a complete story, lack of space forbids. He paid his respects to the Kaiser and his counselors in no uncertain terms. The address can be summed up in these words—eloquent, fiery and logical. Mr. Hailey is a very busy man, as he is editor and proprietor of the Barry Record, a newsy weekly paper. Then on Sunday he goes out to preach the word to those who delight to hear it. His address was listened to by a large appreciative audience, and was interrupted only by applause. At the conclusion of the services at the church, the cemetery was then visited by a large part of the congregation, and where brief service was had before the graves, nearly 50 in number, were decorated with flags and flowers. The committee on arrangements consisted of G. T. Lewis, John C. Nickel and S. M. Henderson. They were ably assisted by a committee of flower girls, three from each church. The committee was composed of the following: Miss Eva Gaddis, Miss Edna Wilson, Mrs. Glen Caldwell, Miss Ruth Henderson, Miss Irene Valentine, Miss Rena Bayless, Miss Ella Rentschler, Miss Sara Deltrick and Miss Bernice Murphy.

The committee on arrangements selected as their successors for 1919, the following men who will arrange the next year's program: P. R. Leonard, B. A. Craig and Sara Hansmier. As is usual on May 30th, a good many former Concord people return on that date to attend the services and meet relatives and old friends. Almost all of the graves of the more loved ones who have gone on before. Your reporter was very busy helping to decorate the old soldiers graves, but found time to shake hands with a number. Their names as we now recall them are as follows: Arthur D. Burbank of Springfield; Charles

L. Rayburn of St. Louis; Mr. and Mrs. William A. and daughter of Beardstown; Mr. and Mrs. S. Halpin of Bluffs; Mrs. Shillinger and daughter, of White Hall; John Shillinger, wife and sons of Winchester; Mrs. Leary and daughter of Beardstown. Recently our neighbor, August Brockhouse rented a 40 acre field of clover to put in corn. The land was in wheat last year, and had a beautiful stand of clover about two feet high. Mr. Brockhouse hired three tractors, each pulling three plows and they started in about the middle of one forenoon and had to quit on account of rain, but when it was dry enough they resumed work and in about 24 hours actual time the clover was "out of sight." Teams hitched to pulverizers and harrows, soon prepared the ground for the planter, and Tuesday of this week the corn was all planted in fine shape. This field will be watched with interest by others besides Mr. Brockhouse.

"IT PAYS TO CROSS THE STREET"

WHY AND WHAT FOR?
NOT FOR SUGAR, BUT—
for GASOLINE and CYLINDER OILS. You would not think of paying your grocer 15c a pound for sugar, when you could walk across the street and get the same thing for 9 cents. That would be PREPOSTEROUS. But—you buy Gasoline at 27c to 30c per gallon, when you can get the same thing of me for 22½ cents. Did YOU EVER THINK OF IT?

C. N. PRIEST,
The Ford Man.

POST-ATTENTION!
Members of Matt Starr Post and all other veterans of the Civil war, whether members of the post or not, are especially invited to meet with us at 7:30 this evening and march to the Baptist church and attend patriotic services there. Come and listen to the music of the Union as it is wafted over the mystic chords of memory of the far past, and listen to a Union soldier who will speak and a Confederate veteran who will reply as they clasp hands across the mythical bloody chasm. We are a united nation now, and the last vestige of bitterness engendered by the great strife has been obliterated. One flag floats supreme over Mason and Dixon's line which at one time divided our glorious republic. The sons of the men in gray, and the sons of the men in blue, are today touching elbows as they are marching on to victory in far away France or on the crimson fields of Belgium. We cannot go "over the top" but we can cheer and help our boys who are getting ready to scale the bloody heights that lie between universal freedom and the most ruthless, inhuman foe that ever threatened civilization. Your presence will be an inspiration to the younger generation to stand by our country as once you stood when war waged its wide desolation. Space will be reserved for the Woman's Relief Corps and members of the G. A. R.
J. M. Swales, Commander.
C. E. McDougall, Adjutant.

OVERWORKED, TIRED
WOMAN TOOK VINOL

Now She is Strong and
Hearty

Philadelphia, Pa.—"I was overworked, run-down, nervous, could not eat nor sleep. I felt like crying all the time. I tried different remedies without benefit. The doctor said it was a wonder I was alive, and when Vinol was given me, I began to improve. I have taken eight bottles and am now strong and perfectly healthy in every respect, and have gained in weight. I can not praise Vinol enough."—Mrs. Sarah A. Jones, 824 Nevada St., Philadelphia, Pa.
We guarantee Vinol to make overworked, weak women strong or return your money. Formula on every bottle. This is your protection. For sale by all druggists.

FAIR PROPERTY

No. 364. We have a 320 acre tract, four and a half miles from a good town on Wabash. One of the best farms in Morgan county. There are 110 acres of wheat, 160 acres planted to corn of which 70 acres was clover sod this year. Wheat crop promises forty bushels to the acre today. And the fresh fertile soil guarantees a good corn crop. This land is thoroughly tilled. There is a seven room house, barn for twelve horses and a large hay barn. There are corn cribs for 7,000 bushels and a 4,000 bushel granary. Fairbank's stock scales. This is a forty minutes drive from the city and can be had for \$200 per acre.

No. 365. In the neighborhood of Alexander we have a 350 acre farm that will please you. There are seventy acres of wheat, forty acres in oats, forty acres in clover, 160 acres in corn and the balance in blue grass pasture. This is offered for a short time only at \$210 per acre.

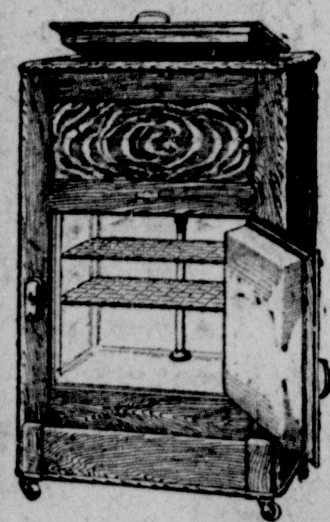

No. 366. Eighty acres of land, four and a half miles from a good town on the C. & A., of which forty acres are well set to blue grass and forty acres in timothy meadow. There is an excellent spring that furnishes water the year around for any amount of stock and plenty of shade. This land is well tilled and good productive soil. It is well fenced and cross fenced. There are no buildings. This is an excellent rental proposition and requires little attention and no expense except the taxes. This can be had for \$150 per acre. Owner would consider a good residence in west part of the city.

CITY PROPERTY

No. 521. On West College avenue we have a fine big lot with an eight room house, modern throughout, hard wood floors, good well and cistern, has it's own water system, good barn and shed. There are five rooms in basement of which two are concreted. Buildings painted last year; in good condition throughout. Price \$6,000.00.

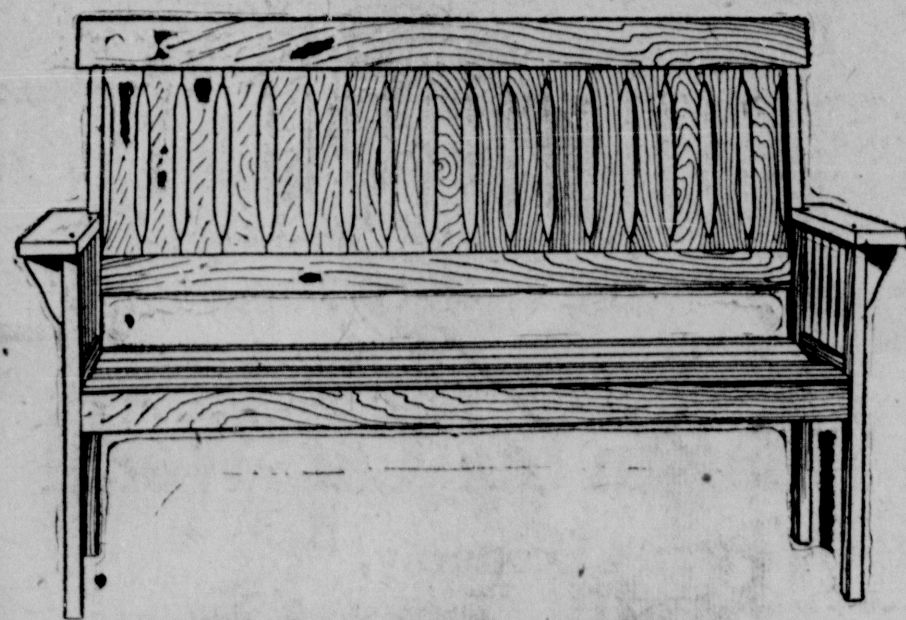

We have a nice modern, seven room house for sale to move off of lot. Will consider in exchange five or six room cottage or good vacant lot well located.

ALEXANDER NOTES
Alexander, May 31.—M. E. Greenleaf, who has been visiting at Kingman, Kansas, for a number of months, has returned and is visiting at the home of his brother, Eugene Greenleaf.

Mrs. J. W. Knous and Frances Ridder of Alexander returned Thursday night from a week's visit at Camp Taylor, Ky.

Mrs. Bridget Gaul who has been ill for the past ten days in Jacksonville, returned home this evening accompanied by her daughter Mrs. Stacia Hennessey.

Mrs. Silas Moates and daughter Miss Mary, who have been visiting in Springfield returned to their home here Thursday.

The birthday social was held in the basement of the M. E. church Friday afternoon. Those entertaining were Mrs. Rosa Strawn, Mrs. Henry Young, Mrs. E. E. Mason, and Mrs. Ernest Strawn.

Mrs. E. J. Kumble, Father F. A. Lucius and Miss Agnes Hagel motored to Jacksonville Friday.

Miss Harriett Six left Friday evening for Buffalo, Ill., to spend a week with her cousin, Miss Lucinda Todd.

Miss Hannah Welch of Springfield, who has been visiting here during the past week, expects to return home Saturday afternoon.

Miss Frances Ridder and Mrs. Anna Herman left Friday to visit relatives at Diverson.

promptly. Call or phone.

REMOVE HERE FROM
E. ST. LOUIS

Mr. and Mrs. Jesse L. Henry and family have removed from East St. Louis to Jacksonville and are now occupying their home on Webster avenue, recently purchased from Mr. and Mrs. George E. Matthews. Mr. and Mrs. Henry bought their household effects overland in three big auto trucks. Mr. Henry said yesterday that this was certainly the most satisfactory way of moving. Now if shipment is made by freight it is quite uncertain when the car will arrive and there is more or less damage to furniture certain when it is loaded on a car and subsequently taken out for reloading on trucks. The many friends of Mr. and Mrs. Henry are glad that they are again residents of Morgan county.

Military is the Word

The World Is Short
of food. Everything you eat is high and going up. There's no other way for you to help win the war and help yourself than to raise more farm products. There's no better place for you to do this and get started with so little money than Western Nebraska, Eastern Colorado, Wyoming or Montana. Climate, transportation and markets are right. You can homestead a whole section or purchase improved land on easy terms. This is a real opportunity for renters and farm hands who mean business and can act quickly. Tell me whether you prefer to raise grain, sugar beets, potatoes, alfalfa, fruits, live stock or poultry, and I'll gladly give you the benefit of my advice. Sit down and write me today. There's no time like the present to get started.

LIGHT HITTING GAME**
New York Wins First Home Series
Game of Several Weeks, by 2 to 0 Score—Other National League Results.
New York, June 1.—New York celebrated its return from a long road trip by beating Pittsburgh in a light hitting game here today 2 to 0. Perritt blanked Pittsburgh with three hits. Cooper also pitched well but New York bunched three out of five hits on him for their two runs. Zimmerman tripled in the fourth and scored on Fletcher's single. In the seventh Zimmerman walked, took second on a sacrifice and scored on Rariden's single.

Detroit, June 1.—Detroit defeated Boston 4 to 3 in thirteen innings today. Hellmann driving in the winning run with two base hit far over Strunk's head, scoring Young, who had singled and reached second on an out.
Boston tied the score in the ninth after two were out and prevented Detroit from winning in their half of the same inning by

PAINS IN BACK AND SIDE
Yield to Lydia E. Pinkham's Vegetable Compound
Kansas City, Kansas.—"I suffered from pains in my back and side caused by a functional derangement. I was nervous and had headaches most of the time. So many people recommended Lydia E. Pinkham's Vegetable Compound to me. I tried it and after taking six bottles I am well. I do not think the Vegetable Compound can be beaten for women's ailments."—Mrs. J. Timmerman, 301 N. Hutchings St., Kansas City, Kansas.
Women who suffer from headaches, nervousness, backache, the blues and other symptoms of a functional derangement should give this famous root and herb remedy a trial.
For forty years it has been overcoming such ailments of women after other medicines have failed.
If you want special suggestions in regard to your condition, write Lydia E. Pinkham, Medicine Co., Lynn, Mass. The result of long experience is at your service, and your letter will be held in strict confidence.

**WIN FIRST GAME OF
WESTERN INVASION**
Triple Play and Bunching of Hits Enables New York to Defeat White Sox 6 to 3—Other American League Games.
Chicago, June 1.—A triple play by New York and bunched hits by the visitors gave them the first game of their western invasion from Chicago today 6 to 3.
Baker started the play which wrecked Chicago's hopes. The bases were filled, two men had scored and none was out. Thormahlen had been replaced on the mound by A. Russell. On a hit and run Randall drove the ball on a line toward left. Baker ran over and speared it with his glove, hand, then threw to Pratt, doubling Felsch. Before Weaver could get back to first, Pratt threw to Pipp completing the play. The visitors concentrated all their attack in three innings.

American and Her Allies — Congregation. Benediction.

OUR INCREASING TRADE IN ALL DEPARTMENTS HAS MADE IT URGENT TO REPLENISH OUR STOCK AND EVERY DAY NEW GOODS ARE ARRIVING. J. HERMAN.

WATER WORKS IMPROVEMENT BONDS
Our Chamber of Commerce in a printed pamphlet before me on pertinent facts in regard to Jacksonville "Under the Commission Form of Government, the first two years have reduced the City indebtedness \$63,650.43." That is good considering the improvement of the light plant and paying one-half the expense of all side-walks built. Now compare the first three years of our present Mayor and commissioners, and you can not help saying they have shown the business ability that would entitle them to be entrusted with the expenditure of \$75,000.00 for this improvement.

All the cost of Pavements even the street intersections are paid by the property owners on the street and the same with sidewalk. They have paid for no Public Improvements in the city, except the Central Park—the tax for that purpose has been increased in the last three years so it amounts to Ten Thousand Dollars (\$10,000.00), annually, double what it was previously, and yet their report of owing an overdraft at the bank of Five Thousand dollars at the commencement of the year, and at the end of the year, after expending the Ten Thousand Dollars they still owed the bank that old over-draft of Five Thousand Dollars. They have doubled the Library tax, making that being Ten Thousand dollars annually, a new tax called Public Benefit, that would mean most any old thing, but it brings in annually Nine Thousand Dollars and the Garbage tax of Ten Thousand Dollars annually, this tax is a new one on me, but I find from my tax receipts for the last two years, I paid Forty-eight Dollars and the City has not given me a nickel's worth of service for it, nor do I know of any of that kind of service in this part of town. There has not been any work done on Routh Street for the last three years only what was paid for by private parties.

What comes of the City's revenues? They complain all the time of having no money after anticipating taxes for the next two years—none to pay the City's employees, and are raising their salaries twenty per cent so they can discount their pay checks at the bank. The poor kind of business. February, 1917—not being able to borrow money they started the Water Question and induced a number of citizens to sign a Note for Six Thousand Dollars to secure the bank until we vote the water bonds and pay the Note out of the proceeds of the Sale of the Bonds. Let us wait until next spring, with a new set of men, a water board of three (3) competent men to take charge of the funds and see to it personally without Salary, as was done when the Original Water Works was built that every dollar expended has value received. A. Platt.

BIDS FOR WRECKING HIGH SCHOOL BUILDING
Bids will be received for the wrecking of the high school building until noon 12 o'clock (noon) Monday, June 3, 1918. Specifications may be secured of the secretary, Mary E. Platon. The board reserves the right to reject any or all bids.

Benjamin Cade of Murrayville was a caller in the city yesterday.

CONSERVATORY NOTES

The Graduation recital, including candidates for Teachers' Certificates or Diploma, will be held in Northminster church Monday evening, June 3rd, at 8 o'clock. The public is cordially invited to attend.

The final students' recitals of the year will be held on Friday afternoon and evening, June 7th, at four and eight o'clock respectively. The Conservatory closes its doors for the summer on Saturday, June 8th.

Audrey Hall is playing some violin solos at the School for the Blind on Sunday afternoon, June 2nd.

At the meetings of the Teachers' Institute, to be held in the David Prince school through the week of June 3rd, the following students of the Conservatory will furnish musical numbers: from Mrs. Wilson's class, Miss Jean Peterson, Mabel Forrester, Nelle Self, and Catherine Rapp; from Mr. Kritch's class, Messrs. Dean Cochran, Byron Carpenter and Harold Dunlap; from Mr. Mungler's class, Messrs. Frank Collins, Jr., and Willard Wesner.

At the baccalaureate service to be held next Sunday, June 9th, several numbers will be given by Mrs. Wilson's singing club.

The recital by students of Miss Pires, illustrating the Dunning System of Improved Music Study, took place Saturday afternoon, June 1st, in Recital Hall.

Miss Ruth Duncan is planning to spend two days in the week in Jacksonville through the summer and will do some teaching.

Miss Eunice Gray, formerly Head of the Hall, is visiting with Mrs. Wilson and other friends this week in Jacksonville.

Members of the Illinois College Chorus are requested to return the scores of Hiawatha's Wedding Feast before June 8th.

SCREENINGS \$3.25
Wheat screenings for chickens at \$3.25 per 100 lbs. Sold only by Cain Mills. Both phones 240.

SERVICE
Puncture Proof Tires and Casings. Guaranteed 6,000 miles without a puncture. Roy L. Black, dealer, Route No. 8, Jacksonville, Illinois. Bell Phone 41-2, Litterberry.

John Morrill and Jerome Culp were city callers from Woodson yesterday.

ILLINOIS COLLEGE NOTES

Dr. A. P. Mizley, who is to deliver the baccalaureate sermon to the graduating classes will also speak at the vesper service on the evening of baccalaureate Sunday.

Among the alumni who are expected for commencement week are the following: R. Yates, '80; J. E. Koles, '88; D. W. Prackelton, '94; Percy H. Epler, '92; H. J. Dunbaugh, '98; F. G. Bergen, '63. It is also rumored that Captain W. T. Harmon, '07, may return.

The Sigma Pi Society is proceeding with its plans for the 75th anniversary reunion, although it seems difficult to tell how many alumni will return for this event. The other societies are all planning to hold their love feasts.

The Osage Orange supper will be held as usual on the campus on Monday of the commencement week. All friends are cordially invited to bring their lunches and to join in the picnic. The committee is planning to have a college community sing and there may be other diversions to interest the crowd. The College will, as usual, furnish free coffee and caterer will be on hand with ice cream.

The Reverend Leonidas H. Davis has presented a box of books to the college library, selected from his private library. Mr. Davis is now in Indiana.

The freshman girls have completed the new service flag with its 169 stars, including three gold stars for Illinois men who have died in the service. The flag was carried in the Memorial Day parade.

The alumnae of the Academy, Conservatory and Athenaeum, will hold their annual meeting and reunion at Academy Hall Saturday afternoon, June 8th.

Roszell's chocolate, strawberry and vanilla ice cream and Neapolitan brick ice cream today. Lulu Davis Drug Co., 44 N. Side Square.

THE BOYS ARE "GOING OVER" RAPIDLY

The Emporium

WHAT THE DEPARTMENT OF AGRICULTURE IS DOING

Little Items About Big War Jobs That are Helping American Farmers to Feed Nations

Mobilizing Harvest Labor.

Steps for the systematic mobilization of farm labor in Kansas were taken at a meeting held in Kansas City May 14. This is the first of a series of meetings which are to be arranged by the Department of Agriculture in a number of cities to unite the efforts of all agencies working to secure labor to help farmers in harvesting the crops. At the Kansas City meeting a committee was appointed to direct the work of the various agencies in the State and to see that registrations are held in the cities where city employees who will do farm work during their vacations can register. It is estimated that 80,000 helpers will be necessary to harvest the crops in Kansas this year, and the commercial organizations in Kansas City have undertaken to supply 10,000 of this number.

Protecting Fighters from Bad Meat

Sixty seven inspectors of the Bureau of Animal Industry are now with the army inspecting the meat and meat products supplied for the soldiers, and thirty others are similarly engaged with the navy. Operations are under Federal supervision from the time the live animals are driven into the slaughtering houses until the finished product is delivered in good condition to the mess cooks.

Demonstrations on Preserving Eggs.

To teach city people how to preserve eggs with water glass, extension workers of the poultry division are holding demonstrations in large department stores in a number of cities. Demonstrations have been held in Washington, Chicago, and New Orleans, and the plan is to extend the work to other large cities. Similar demonstrations have

the 15 Southern States 2,624 workers are busy carrying out plans of the food campaign, and in the 33 Northern and Western States 3,027 are employed. On July 1 of last year 1,640 were employed in the Southern States and 606 in the Northern and Western States. In the Southern States there are 130 negro county agents and 150 negro home demonstration agents.

The Department's Experimental Kitchen.

An experimental kitchen where substitutes for wheat are being tested has recently been established and equipped by the office of Home Economics. In this kitchen some of the good old recipes were in use 50 and 75 years ago when corn, buckwheat, rye and barley were in more common use are being revised and standardized and new recipes which wheat substitutes play an important part are being tested and standardized. A group of women—laboratory specialists and housekeepers with special training work side by side in the new kitchen. Before a recipe is made public it must not only pass the test of the laboratory specialists but must also meet the test of actual experience in the hands of a housekeeper who studies it for its practical value in the average kitchen.

Permits for Road Work.

The Office of Public Roads and Rural Engineering is a party to an agreement with the U. S. Fuel Administration whereby road authorities desiring to construct, maintain or reconstruct highways requiring coal or oil products in construction maintenance or repair must have their applications for these materials approved by their State Highway Departments and by a committee headed by L. W. Page, Director of the Office of Public Roads. Approved applications are to be transmitted to the Fuel Administration which will permit delivery of the materials when they are available. Restrictions on the use of these materials have been necessitated by the needs of the army and navy, essential war industries, and the Allies for fuel, oils and coal.

Meeting of Farm Management Demonstrators.

The States Relations Service, in co-operation with the Office of Farm Management, has arranged for a conference to be held in Chicago the week beginning June 3, at which farm management demonstrators of the Northern and Western states will discuss demonstration methods. Ways will be considered for conducting demonstrations with regard to a more efficient use of labor, teams and equipment, and a better organization of the farm to bring about a maximum production of food per workman.

Road Projects Approved.

In March and April the Secretary, on recommendation of the

Office of Public Roads and Rural Engineering, approved 212 State road building projects involving more than 2,300 miles of highways under the Federal Aid Road Act. The estimated cost of these improvements to the States is about \$15,000,000. The Federal Aid allowed is more than \$5,000,000.

A Monthly Survey of Food Stocks.

An inventory of commercial stocks of grain, flour, meal and other food products being taken each month by the Bureau of Markets and the results published in a new monthly publication called "Food Surveys", two numbers of which have already been issued. These monthly surveys began April 1, 1918.

To Study Effect of Eclipse.

On June 8 when the moon's shadow will pass diagonally across the United States from Washington to Florida, the Weather Bureau, in connection with its investigations in solar radiation or amount of heat received from the sun, plans to take advantage of the unusually favorable opportunity to study the effect of an eclipse upon meteorological conditions. Special measurements of the intensity of solar radiation will be made at three stations in Nebraska, Idaho and Oregon. Efforts will be made to obtain accurate observations of pressure, temperature, wind direction and velocity and shadow bands at stations within the belt where the sun will be 90 per cent eclipsed. The data obtained are expected to be of importance in studies of the circulation of the atmosphere.

Fighting Animal Tuberculosis.

In April 22,492 cattle were tested for tuberculosis in the tuberculosis-eradication work of the Bureau of Animal Industry. This number was 2,494 more than were tested in preceding months. The tuberculosis control measures are to be applied in co-operation with State authorities and live stock owners, along three lines—eradication of tuberculosis from pure bred herds, eradication from circumscribed areas, and eradication from swine. In the beginning efforts are being concentrated on eradication of the disease from pure bred herds.

NOTICE TO LOAFERS

On and after June 1, according to instructions from the federal authorities, all loafers and idlers who are able-bodied will be picked up and turned over to the government. Able-bodied men without occupation or visible means of support will take note and govern themselves accordingly.

GEORGE P. DAVIS,
Chief of Police.

DISTRESS IN GERMANY WILL OUTLAST WAR.

New York, June 2.—The distress now prevailing in Germany as a result of the war will continue after the return of peace said Dr. Georg Michaelis, the former Chancellor in an address in Banneckenstein, according to the Cologne Gazette. German materialism shared in the responsibility for war, declared Dr. Michaelis who added:

"We must recognize that we are also responsible for the war, but not politically, for the Emperor wanted peace up to the last moment. Fate has sent us that because money began to rule among us. God wanted to save us from complete materialization. I would rather renounce war indemnities if I again should be responsible, than to see our people be placed in the danger of sinking into materialism." Dr. Michaelis said it would be a deception to believe that the return of peace would mean a return of the well regulated living conditions of 1914.

"We must face the fact that we must carry the suffering of war over into the period of peace," he said. "We must prepare ourselves inwardly to bear the peace sufferings without grumbling. Our life also after the war will be subject to enforced regulation. Scarcity of food and other articles and high prices will continue. Our great debt will force us to adhere to government control of raw material."

SALE OF REAL ESTATE

To pay debts of the estate of William T. Thompson, Deceased. Notice is hereby given that pursuant to the order and decree of the County Court of the County of Morgan and State of Illinois, made and entered on record on the first day of April A. D. 1918, the undersigned, administratrix of the estate of William T. Thompson, deceased will on the 23d day of July, A. D. 1918, at the hour of two o'clock P. M. at the south door of the Court House in Jacksonville, Illinois, sell at public vendue to the highest and best bidder, the following described real estate, to-wit: The south two-thirds of Lot Five (5) in Block Three (3) in Lorton and Kedzie's Southern Addition to Jacksonville, except Forty (40) feet off of the north side thereof, situated in said County of Morgan and State of Illinois, the said sale to be held on the following terms and conditions, to-wit: Cash in hand on day of sale.

Dated this 1st day of June A. D. 1918.

ANCIENT VESSEL BRINGS BIG SUM

Cardiff, Wales, April 23.—A little British sailing vessel, the "Good Intent" carrying 68 tons of cargo and built 128 years ago, has just been sold for three times her original cost.

She was built of sturdy oak timbers taken from British men-of-war and is still in excellent condition. The vessel has undergone little change in construction during all these years.

If your fans are in need of repair call phone 390. The Delco Man.

REPORTS ON SUGAR SUPPLY QUESTION

Prof. Martineau Urges Great Britain to Follow Example of U. S. and Germany in Handling Sugar Problem—Duty Levied on Beet Root.

London, June 2.—(Correspondence of the Associated Press)—In a report on the sugar supply question in Great Britain, Professor George Martineau of the University of London, urges the British Government to learn from Germany and the United States which he describes as "the two countries which have handled the sugar question most successfully." Speaking of Germany's success with sugar in the past decade he says: "There are two causes at the bottom of this mystery. Energy, ability, efficiency and more than all, persistent research, constituted the first and best cause. But this was supplemented by a stimulus designed to induce capitalists to risk their money in the beetroot industry."

"It was Germany that hit upon the right kind of stimulus. It was a brilliant idea and carried out with great judgment. The sugar duty was levied, not upon the sugar produced, but the roots. This at once stimulated the farmer to produce the richest possible quality of root, and the manufacturer to extract from the root the largest possible quantity of sugar. Great pains were taken to breed an improved variety of sugar beet. This research still goes on in

Germany and its success has been astounding. At the beginning the sugar beet contained less than 6 per cent of sugar. In Germany the average quantity of sugar actually extracted has been brought up to practically 18 per cent.

"That this wonderful result was caused by the stimulus, plus of course great efficiency, is proved by the fact that poor France continued getting a 6 per cent yield until it adopted the German system, and even then never succeeded in catching up in the race. That is the worst of being too late. In industry it is fatal." In the United States, says Professor Martineau, the industry has been so carefully fostered that the production has increased many fold. "If America had not created this great increase in production," he explains, "we should at the present moment be suffering—and so would America—from a real sugar famine."

"In 1915 the consumption of sugar in the United States amounted to the large figure of 4,250,000 tons, every ounce of which with the purely accidental exception of 23,000 tons, came from her own states, territories and protectorates. This striking fact is entirely the result of giving a preference. The United States, so far as sugar is concerned, is now entirely independent of the outside world, and is even able to spare us a million tons whenever we are short of supplies."

FORMATION FLYING AT TEXAS FIELD

Spectacle of Aeroplanes in Formation is Impressive and Thrilling One — Training in Flying Service Highly Specialized.

Dallas, Texas, May.—The aviators have given Texas another spectacle. Formation flying which now is being practiced in all the aviation camps, is so "different" so impressive and so thrilling to witness that it has overcome the ennui with which the average citizen has viewed a sky-fleeted with individual aviators, and the epidemic of "arched neck", which was common when the aviators first came south to practice, again threatens.

There is something about the appearance of airplanes in formation, each flyer rigidly keeping an exact distance from the others, that impresses one with the feeling that these men actually have control of the air. The single airplane may respond to conditions in the air, rising and falling to take advantage of the atmospheric situation, but in formation flying each must maintain his proper place, and the sight of a fleet of machines, flying in a triangle or in a square, causes the realization that conquest of the air had advanced to a point heretofore unrealized.

The formation flying usually starts in the evening, at about the civilian dinner hour, when the air is generally quiet. This adds to the worries of the housewife because when there is a fleet of war

planes just over the house, ping, turning, rising and so in perfect unison, no normal daughter nor husband or fath going to "come to dinner." total number of cold meals eaten in Dallas alone since this new development in the process of developing American aviators, w startle statisticians, housew say.

Most of those who are now feeling their skill in formation flying are "bombers." Aviator this duty must travel in groups flying at the side, be behind and above the planes w carry explosives to be dropped on the enemy. The leader usually flies much higher than the others in the party, not only for advantage of the additional v his height will give, but also s to be able to dart down upon enemy plane which undertake break up the party.

The scout planes travel al and the aviators who will ad to this branch of the service not so much in need of skill. formation flying. Neither is artillery control branch nor contact patrol, which latter bra must perfect itself in flying low report the position of its own enemy troops during the prog of a battle.

Training in all branches of flying service is highly special now and the concentration sch at Camp Dick is filled with n who have completed their grou school training and are await to be assigned to a flying sch as soon as there is room them.

The student aviators have come a part of the community in many Texas cities.

CAUGHT IN THE RAIN

Summer showers often play havoc with wearing apparel; but don't be dismayed if you should be caught; just send the injured garment here and we will return it to you looking as good as new.

Our dry cleaning way gives the garments you intrust to us the original, fresh, new lustre—no matter how badly soiled, or how delicate the fabric may be. All you have to do is call us up by phone and we will do the rest. We'll send for your goods and deliver them to you promptly.

WE GUARANTEE SATISFACTION

PARIS CLEANERS AND DYERS

Strive To Have Healthy Skin

Next time you are in a gathering of women note the different conditions apparent in complexion. You will see some filled with blackheads, some dry and rough, some smooth and glossy, some smeared with rouge, some streaked with heavy metallic powders and once in a while you will see one that is a demonstration of intelligence from every point of view. The color is rosy, the skin is clear and smooth, the pores are small and open, the powder does not show on the firm vigorous skin. Every woman can have a good complexion if she will only use a little discretion. If you would acquire real beauty, the beauty of perfect health, you must replenish your worn-out nerves with lecithin. Nature's own nerve restorer, and put into your blood the invigorating iron which Nature intended it to have for health. In most of the modern foods these and other vitalizing elements have been largely eliminated. Yet to be healthy and beautiful the system must have them. They are found in Bio-fereon, not only in proper proportions to restore weakened vitality but in such form as the system can best assimilate them.

A treatment of lecithin and iron peptonate are combined in Bio-fereon to increase the appetite, aid nutrition and invigorate the patient.

And Bio-fereon in its pellet form is easy and pleasant to take—no liquid

Iron discoloration of the teeth, so unpleasant taste.

There is no secret or mystery about Bio-fereon. Doctors prescribe it regularly because they know exactly what it contains as well as what it will do and they know they could not formulate a better up-building tonic.

The action of Bio-fereon on the system is so beneficial, we are so sure of its giving you positive health and vigor, providing, of course, there is no serious, chronic ailment such as cancer, tuberculosis, etc., that we only sell it on the condition that you agree to return the empty package and accept a refund of your money unless you are entirely satisfied.

There is no use waiting for health and beauty. It is better to do things today than tomorrow. Go to your physician today—right now—he will advise Bio-fereon. Then start taking it at once as he advises or as directions on the package call for. The guarantee protects your money. The interesting booklet may be had for the asking.

Large package \$1.00 at all leading druggists or direct if your druggist can not supply you. The Sentinal Remedy Co. Inc., Cincinnati, Ohio.

NUMBER WOMEN WAGE EARNERS GROWING LARGER

More than one-tenth of the married women of the United States were en-

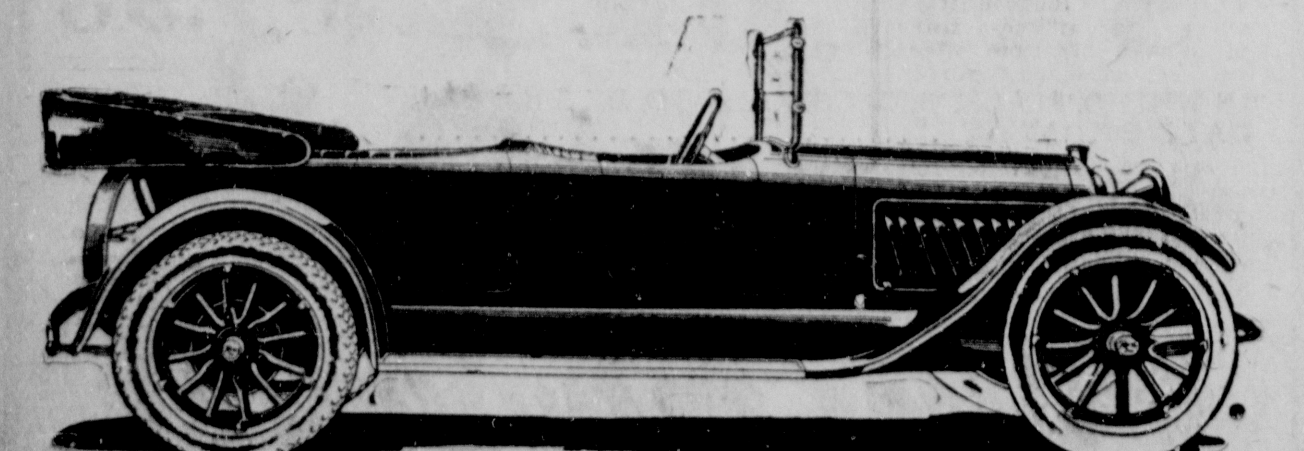

gaged in gainful pursuits in 1910, and over twenty-five per cent of all women sixteen years old or over, were wage-earners, business women, etc. Since the war the percentage has greatly increased. Many of such women are better adapted for work in shops, factories or offices than the men, if it were not for the sufferings, the burdens and weaknesses of the sex.

A helping hand to lift up weak, tired, over-taxed women—that's what you find in Dr. Pierce's Favorite Prescription. It gives you just the tonic that you need. To be had in liquid or tablet form, 60 cents, at all drug stores. It is a medicine that's made especially to build up women's strength and to cure women's ailments—an invigorating, restorative tonic; soothing cordial and bracing nerve; purely vegetable, non-alcoholic, and perfectly harmless. It regulates and promotes the proper functions of womanhood, and it's a herbal tonic that improves digestion, enriches the blood, dispels aches and pains, melancholy and nervousness, brings refreshing sleep, and restores health and strength.

Alton, Ill.—"I had need of a medicine to aid me when in a delicate way. I saw 'Favorite Prescription' advertised in the paper. I began taking it and it helped me at once. I used it for six months and it proved to be the best medicine for that purpose. It makes one stronger, more comfortable and better able to endure. I was so delighted with the good I received that I have recommended it to my friends."—Mrs. C. Twichell, 107 E. 4th Street.

MOUND CLUB MET WITH MRS. KITNER

"New Country Life" in Verse Presented in Excellent Way By Mrs. R. G. Vasey.

The Mound Women's Country club was entertained Friday afternoon at the pleasant home of Mrs. Harry Kitner, a large number of members and guests being present. Mrs. R. G. Vasey, vice president, presided at the meeting. Mrs. John Gunn and Mrs. W. S. Jones gave very interesting reports of the District Federation meeting.

Mrs. Ruben Gunn of Wisconsin gave an account of the eugenic law of Wisconsin. Mrs. R. G. Vasey read a paper on "New Country Life" which was excellent. Members responded to roll call by naming some prominent man from the farm. Delicious refreshments were served by the hostess after the business session.

The paper by Mrs. Vasey was written in verse and is published herewith at the request of the club. It is a paper of more than usual merit.

New Country Life.
New Country Life is the theme of which I am to write,
And if I told you all the things, we'd be here half the night.
Listening to the marvels of the new things on the farm,
From the steamer in the kitchen to the tractor in the barn.
We'll quit working as farm women in a few years, more or less.

When new patents become cheaper, and more marvels we possess,
Even now we've quit churning—we take the cream to town.
Where they make it into butter, and pay us the cash—down.
The cream, we never skim it from the crocks as they used to do,
And the menfolk run it thru.
Its incubator chicks we have, we never use a hen,
To hatch them out nor raise them, we use a brooder pen.

And when it comes to gardening, we all do that this year,
Of putting the seeds in the ground just right we need have no fear.
For they come all pasted on a string, with every seed just so,
And we just scratch the earth a bit, and lay them in a row.
And when we clean our houses, we never use a broom,
We take a vacuum cleaner and go from room to room.
Getting all the dust and germs that float around in air;
We know we must be sanitary and give particular care
To our children's health and strength, so we use a dustless rag.

To gather up the dirt and dust, and put it in a bag,
We cook our wheatless, meatless meals in our fireless stoves,
Thus conserving Garfield coal, while making Hoover loaves.
We have our running water in the bathroom and the sink,
And a furnace in the cellar to keep us warm, I think.
The city ladies cannot put it over us.

For conveniences of living, and working without muss,
When we go outside and look around, to see what the men have done,
For they, you know, to till the soil, must work from sun to sun,
Do we find them pumping water, or milking the old cow,
Or driving poor old Dobbins to a one-horse walking plow?

No, indeed, they use an engine that is run with gasoline,
Which they connect with little trouble to every kind of machine,
And pump water for the stock, a whole tank-full at a time,
And do the whole week's washing while the women folks recline;
It milks two cows with perfect ease; its been put to the test.
You just attach a milking tube, and the engine does the rest.
It shells the corn and grinds the meal, to feed the hens and chicks;
It bales the straw and fans the wheat of all the dirt and sticks;
It shreds the fodder for the cows, and pours it in a spout.
Which is passed into a silo, where it turns into kraut.
Which produces protein, fats and carbons,
In just the exact amount to make it come just right.

To fatten all the cattle, and make the cows give milk,
To keep them in condition, with coats as soft as silk,
Yes, with this little engine, we turn the cider press,
And saw the wood, and shear the sheep, and everything, I guess.
We know it runs the dynamo to make electricity
For house and barn, porch and garage, to make it light to see,
And we have even heard of some who keep the henhouse bright,
To keep the old hens busy, and produce eggs at night.
Its sanitary pigs we have, kept in sanitary pens,
With concrete floors and drainage tiles all others we condemn,
As out of style and quite unfit for modern pigs to live;
As for the old time wallow, why just the thought would give,
The modern farmer quite a pain to find one on the farm;
For it is full of bugs and germs and sure to do some harm;
The modern pig must have his bath, preferably a shower
Of oil or dip to disinfect; that is kept in a tower.
When he wants his bath, he'll hump his back, but he'll scratch in the same old way.
Ah, where is Maud Muller, when the clover hay is ripe,
With her big straw hat and garden rake, she was a lovely sight,
But alas, she has departed, and in her place we find,
A wagon, with contrivances of every sort and kind
To rake, and turn, and load the hay, and put it in the barn.
While Maud sits on the shady porch knitting sweater yarn,
We have a special wagon, which we drive around the field,
To spread the fertilizer so a larger crop we will yield;
And have you seen the tractor for plowing up the ground?
It is a grand invention, and we think 'twill soon be found,
On all the farms, both large and small, with haven't ones yet;
And they, no doubt, will all be run by the jolly farmerette.
The wheat is threshed in carload lots, all in a single day;
Fifteen hundred bushels, more or less, they say.
Can be handled with those power machines and only a few men
To bring the grain in from the field, and haul it away again.
Just see our transportation, why the country roads abound
With autos, both large and small for getting into town,
The speed with which we travel, and the comfort too you know
Is quite different from the oxcart that was used not long ago.
The ice man and the grocer come with their auto truck,
And bring their stuff right to the door, and saves us all that muck
Of taking produce into town and bringing back a gain.
The egg case, and the groceries - to feed our hungry men.
The postman and the telephone we have had for such a while
That to pretend they are something new would cause you all to smile.

That each could be improved upon I think we'll all agree,
But when that change will come about, is what is puzzling me.
Now I have only told a few of the things that we possess,
And we shall have even greater things as the years progress.
The work is entirely different from what it used to be—
We are working for the improvement of all humanity.
We have improved the country schools to help posterity,
And the improvement on the country roads is wonderful to see.
We help elect our presidents and to prove that we're not fools,
We did our best and turned the vote against Community schools.
You see we keep quite busy in this New Country Life.

Especially the last few months since our Country is at strife,
We are doubling every effort to make everything we do
Count for something for Our Country and for Our Allies too.
So when our brains grow weary, and our nerves begin to rub,
We will get into our auto and attend a Woman's Club.
And an afternoon with others striving to do the same thing,
We are refreshed in mind and body, and ready for work again.

Julius Katzenstein of Petersburg was attending to his business in the city yesterday.

BRITISH MERCHANTMEN WARD OFF U-BOATS

Many Stories of Gallant Seaman-ship Indicated by Admiralty Records — Accounts of Recent Unsuccessful Attacks.

London, April — (Correspondence of the Associated Press) — In the weekly return showing the number of British merchant vessels attacked by submarines occurs the phrase "British Merchant vessels successfully attacked." The Admiralty records show that hidden away in that phrase is many a story of gallant seaman-ship.

During the month from March 15 to April 15 of this year, sixty-four British vessels were attacked unsuccessfully by U-boats.

The submarine which attacks a defensively armed merchantman has no longer a "sure thing." During the past month there were several cases in which even the U-boats were unsuccessful in an attack on a single steamer. There are several cases, also, in which the steamer completely turned the tables on the German, and sent him to the bottom instead.

Even sailing-ships frequently give a good account of themselves against the submarine although in the nature of things they are much less easy to manoeuvre than a ship with steam power. The following is one such case reported to the admiralty:

"A sailing ship was proceeding leisurely on her course when the lookout sighted a submarine on the starboard quarter. She lay quiet until the U-boat came within range, and then opened fire. The gun crew knew their business, for they soon found the target, and out of thirteen shots, eight direct hits were scored. The U-boat, which had been vainly twisting and turning to get out of range, suddenly went down by the bows, and her stern stood clear of the water for nearly half a minute. Then she dived perpendicularly, and came up at an angle of thirty degrees above the water. For a short space of time she remained in this position, and then disappeared like a stone."

Early one afternoon the captain of a steamer in ballast saw the track of a torpedo coming direct for his ship. By a quick swing he succeeded in avoiding it. Then the U-boat came out of the water and opened fire, one of his shells piercing the deck and wrecking the second cook's cabin. The steamer replied valiantly and the encounter continued for four hours, the steamer going at top speed all the time and keeping the submarine dead astern. A shot from the steamer struck the submarine amidship but failed to do sufficient injury to force the German to discontinue the action. But after four hours, the steamer got the submarine into a smoke cloud, and a shell appeared to burst close to the U-boat's bow, after which the enemy quit the chase.

In another attack, which was successfully beaten off, the merchantman's gunners were handicapped owing to the deck giving way under the gun early in the action. Every time the gun kicked the platform under it jumped. The man who was sighting it was injured, but the crew continued firing and eventually forced the submarine to discontinue the action. One of the first shots from the submarine broke the wireless aerials of the steamer, but the wireless operator repaired the damage under fire and got a message through to the nearest British destroyers.

NOTICE TO LOAFERS

On and after June 1, according to instructions from the federal authorities, all loafers and idlers who are able-bodied will be picked up and turned over to the government. Able-bodied men without occupation or visible means of support will take note and govern themselves accordingly.

JAPANESE INVESTORS IN CHINA TO COMBINE

Tokio, June — A company is to be organized in Japan with a capital of one million yen to undertake industrial enterprises in China. All the firms prominent in Japan are interested in Chinese investments will be represented in this company and the Board of Directors will be chosen from all the interests concerned. It is expected that Mr. Shinjo of the Tokio Electric Works will be president of the new combine. The recent activities of Japanese investors in China show a tendency towards combination and the elimination of needless competition. The establishment of the China-Japan Industrial Development Co., with Japanese and Chinese capital, and of the Exchange Bank of China and Japan has had considerable influence on the economic and industrial development of China.

Emory Carter of Chandler-ville was one of the arrivals in the city yesterday.

The Reason Why We Sell G & B PEARL

WE want business. Consequently we must make satisfied customers who come back again and again. The best way we know to make satisfied trade is to sell satisfactory merchandise. That's why we handle G & B PEARL Wire Cloth for screening doors, windows and porches.

G & B PEARL Wire Cloth outwears painted and galvanized cloth by years, simply because it is more rust proof by far than any similar cloth. And you know rust, not wear ruins screens. From every standpoint—wear—economy—looks or cleanliness—G & B PEARL Wire Cloth is the one best buy for screening.

We sell the genuine article with the G & B Round Tag on the roll and 2 Copper Wires in the Salvage.

SUN-RAY LENS Legal Everywhere

The Sun-Ray Lens more than meets with the legal requirements of all the different states and cities now having "glaring" headlight legislation. And the Sun-Ray Lens will more than meet the requirements of all future legislation. The different laws say in substance that all light beams must be kept within 42 inches of the ground. The Sun-Ray Lens is within the letter and the spirit of the law.

For Sun-Ray Lens abolish glare, keep all light within the forty-two inch limit and what's more, give 168 degrees of side illumination thus making night driving safe for all.

ECZEMA CAN BE CURED
Free Proof To You

All I want is your name and address so I can send you a free trial treatment. I want you just to try this treatment—that's all—just try it.

I've been in the drug business in Fort Wayne for 20 years, nearly everyone knows me and knows about my successful treatment. Over six thousand for hundred people outside of Fort Wayne have, according to their own statements, been cured by this treatment since I first made this offer public.

If you have Eczema, Itch, Salt Rheum, Tetter—never mind how bad—my treatment has cured the worst cases I ever saw—give me a chance to prove my claim.

Send me your name and address on the coupon below and get the trial treatment I want to send you FREE. The wonders accomplished in your own case will be proof.

J. C. HUTZELL, Druggist, 2385 West Main St., Fort Wayne, Ind.

Please send without cost or obligation to me your Free Proof Treatment.
